The Idea Behind the Starbucks Experience Nadine Pahl, 2009-03-27 Research Paper undergraduate from the year 2008 in the subject Business economics Operations Research grade 1 0 University of Applied Sciences Berlin course International Entrepreneurship language English abstract 1971 when the Starbucks experience begun Starbucks was just a small coffee shop in Seattle USA Today Starbucks named after the first mate in Herman Melville s Moby Dick is the world s leading retailer roaster and brand of specialty coffee with millions of customer visits per week at stores in North America Europe Middle East Latin America and the Pacific Rim Thus within not more than three decades Starbucks offering of distinctive blend of quality coffee neighbourly camaraderie and a unique coffeehouse culture combined with an aggressive growth strategy helped it to become the most famous specialty coffee shop chain in the world and a global company In 2007 it run more than 15 000 stores worldwide by employing more than 172 000 people But in the same year 2007 despite revenues of USD 9 4 billion Starbucks had to report a first ever decline in same store sales As early as the mid 1990s analysts had been predicting that Starbucks could not sustain such strong growth especially in same store sales For more than 10 years Starbucks had consistently beaten these expectations By 2007 however Starbucks unprecedented size combined with the uncertainty of the economy had placed the company in a new competitive game As a result in early 2008 Starbucks announced a series of initiatives to cope with the new challenges and to prepare for a successful future all of them based on renewing the focus on customer experience and slowing down expansion But what constitutes the Starbucks strategy that has been that successful in the past What were the main drives of the considerably growth of the Starbucks business And is the Starbucks strategy flexible enough to adapt to the current challenging market conditions After the introduction of the Starbucks business in terms of vision mission and history this assignment focuses on answering these questions by analysing Starbucks strategy and its key drivers of success in chapter 2 This analysis is done with the model of the strategic diamond that is introduced in the beginning of chapter 2 as working basis The assignment ends a comprehensive analysis of the challenges Starbucks is facing today and how it prepares to successful handle them

The Power Of Globalization, How Starbucks Has Revolutionized The Coffee Industry, And How Rapid Expansion Into Foreign Markets Has Allowed Starbucks To Become The World's Largest Coffee Chain Dr Harrison Sachs, 2020-03-11 This essay sheds light on the power of globalization and elucidates how Starbucks has revolutionized the coffee industry Furthermore how rapid expansion into foreign markets allowed Starbucks to become the world s largest coffee chain is delineated in this essay A paradigm of a company that has prudently capitalized on the opportunity to expand

into foreign markets after struggling to further foster significant market share growth past 39.8% within the United States is Starbucks. The US economy has reached a state of maturity and marketplace saturation with little growth opportunities in the coffee market and Starbucks must therefore seek market share growth and new revenue streams in foreign markets to further bolster profitability. Starbucks Corporation, an international coffee chain originated from Seattle, WA, operates in more than 40 countries across the world. Starbucks plans to more than double the rate of opening its stores within the global economy. Chief Executive Officer Howard Schultz informs Bloomberg News about opening 1000 more stores in coming years. China will be the biggest growth market for the largest coffee supplier within the next two years. As Starbucks continues to expand globally, we all can watch its achievements every day. As of 2010, Starbucks has been able to establish a foothold in ample foreign coffee markets and continues to rapidly expand their brand into a copious amount of more foreign countries so that they can attain increased brand growth and profitability. The power of globalization offers brands the opportunity to maximize profitability, establish a global presence in a myriad of foreign markets, and conduct business operations at low operating costs. Brands that efficaciously embrace globalization will be able to generate more revenue streams, attain more competitive advantages, and substantially reduce labor costs and the costs of goods sold far more so than brands that neglect to capitalize on globalization opportunities. Through globalization, Starbucks has expanded beyond just being a coffee house in Seattle, Washington. Starbucks has evolved into a world-renowned brand that is known for their unique brewed coffee product offerings, modern-day relaxing ambiance replete with comfortable furniture, and top-notch customer service delivered by their baristas. Starbucks' lofty brand recognition has played a salient role towards helping the company transition into becoming a highly-profitable global brand through replicating and refining their successful business model when expanding into emerging foreign markets. Positive word of mouth from loyal Starbucks patrons through social media platforms has also attributed to Starbucks becoming a highly-profitable brand in foreign countries. Starbucks has revolutionized the coffee industry. Direct competitors of Starbucks cannot compete with the convenience factor that Starbucks offers their consumers by having their coffee cafe placed in over 30,000 locations worldwide, cannot come close to matching the level of positive brand recognition Starbucks has established on a global scale, and cannot win over loyal Starbucks customers in the coffee market. Moreover, Starbucks offers their products in the grocery stores, which further helps their brand gain more recognition, build more traction, and secure the lifetime values of more coffee drinkers. Ultimately, Starbucks efficaciously leveraged the power of globalization to become a behemoth of a global brand and could not be as profitable nor have grown as rapidly as a multibillion-dollar leading international coffee chain if they did not expand beyond the United States. Ultimately, embracing globalization has not only allowed Starbucks to dominate a preponderance of foreign coffee markets but has also allowed Starbucks to attain an unprecedented level of profitability, brand growth, brand recognition, brand equity, and brand loyalty by capitalizing on lucrative global expansion opportunities.
