experiences at how Zero Tolerance Policies contained in the schools Code of Conduct disregards the rights of the student especially students with disabilities These policies are failing students everywhere including my residence of Syracuse New York Statistically these unfair and biased Zero Tolerance Policies have led to very high suspension rates affecting mainly inner city students but overwhelmingly target students with IEPs 504 Accommodations the untested but suspected LD student and the intellectually gifted student Healthcare Mental Health and Medical Privacy HIPPA now play large roles in school especially in decisions to suspend a student however coupled with a school districts Code of Conduct they have become a crucial aspect for suspension Once you understand the link between a referral to In School Suspension ISS warehousing students or a referral for Out of School Suspension OSS push out of students you will realize that in most cases suspension can lead directly to the prison industrial complex for our young women and men Stopping this from happening to your student may depend on how well you are prepared to advocate for your child We must not allow suspension to push out our children because ostensibly it may be ensuring them a life sentence of unemployment crime or even death We say it starts at home with the parents so if we can better understand our student s rights and the rights we have as parents we can better prepare ourselves to advocate for our student and to hold the school district accountable for the Education of Our Children
