Standardized Evaluation Guidelines (SEGs)

The Standardized Evaluation Guidelines (SEGs) define the competency levels for all required performance categories and any agency-specific requirements. The SEGs are intended to provide a fair and uniform scoring method to assess each trainee's progress. It is through the use of these guidelines that the field training program achieves a recognized level of standard, competency, and credibility.

Overview

Throughout the Field Training Program, the FTO rates the trainee's performance. Each observed behavior is rated using the **Daily Observation Report (DOR)** described in [Appendix 2](#) in the FTP Guide. The rating scales can be scored in two ways: the **Numeric Scale (1–7)** or the **NICS Scale (NI–Needs Improvement/C–Competent/S–Superior)**. The numeric scale offers more flexibility to rate behaviors on a sliding scale between 1 and 7. The NICS scale provides a more direct scoring method. Agencies decide which method best meets their particular training approach.

A rating of "1" or "N/I" indicates the observed behavior is *Unacceptable* or *Needs Improvement*, a rating of "4" or "C" meets the **minimal** standard of *Acceptable* or *Competent*, and "7" or "S" indicates the trainee's performance is at a *Superior* level.

Any rating of "1" or "7" on the numeric scale or "N/I" or "S" on the NICS scale **requires** a Documented Situation (DS) to describe the event which resulted in the observed rating. The FTO fills out the **Narrative Evaluation** portion of the DOR to document the event (see [Appendix 2](#)).

The following SEGs correspond to the numbered observable behaviors listed in the DOR for each performance category. Use these value definitions when rating a trainee's level of performance.

Performance Categories

ATTITUDE

1. Acceptance of Feedback/FTO/FTP

Evaluates the way the trainee accepts criticism, how the trainee interacts with the FTO, and how the trainee accepts the training program, including how the FTO's feedback is received and used to further learning and improve performance.

- | | |
|----------|---|
| 1 or N/I | <i>Unacceptable</i> – Rationalizes mistakes. Denies that errors were made. Is argumentative. Refuses to, or does not attempt to, make corrections. Considers criticism a personal attack. |
| 4 or C | <i>Acceptable</i> – Accepts criticism in a positive manner and applies it to improve performance and further learning. |
| 7 or S | <i>Superior</i> – Actively solicits criticism/feedback in order to further learning and improve performance. Does not argue or blame other persons/things for errors. |

Learning disabilities screening and

evaluation guide for low- and middle-income countries Anne M. Hayes, Eileen Dombrowski, Allison H. Shefcyk, Jennae Bulat, 2018-04-29 Learning disabilities are among the most common disabilities experienced in childhood and adulthood. Although identifying learning disabilities in a school setting is a complex process, it is particularly challenging in low and middle income countries that lack the appropriate resources, tools, and supports. This guide provides an introduction to learning disabilities and describes the processes and practices that are necessary for the identification process. It also describes a phased approach that countries can use to assess their current screening and evaluation services, as well as determine the steps needed to develop, strengthen, and build systems that support students with learning disabilities. This guide also provides intervention recommendations that teachers and school administrators can implement at each phase of system development. Although this guide primarily addresses learning disabilities, the practices, processes, and systems described may be also used to improve the identification of other disabilities commonly encountered in schools. **An**
