

Application Essay for Stanford University. Paper Example Essay

Despite the provision of quality goods and services being the primary goal of starting a business entity, researching opportunities to improve revenue and reduce costs matters most to me. Across three generations, my family has been the oldest BMW Group (BMW, MINI, and Rolls Royce) importers in the world. Both my grandfather and father have led the company successfully through incredibly challenging times, including the fifteen-year civil war. Many investors have invested in the automobile importing business and competition has made a lot of companies struggle. I want to acquire more knowledge on means to increase the company revenues minimizing the costs incurred in the importation and selling of the automobiles. As such, inhering both the responsibility and the burden of the company is an active choice; and a challenge I am equipping myself for after taking over the company.

Making money through profit gained can be good news to tell your friends and relatives in a family gathering. 'This year, I am opening a new branch for the company.' To make such a statement require a lot of skills, and the Stanford University Business School MBA program offers a range of these skills. The scope of the electives provided is appealing for my MBA choice. I plan on pursuing the finance and strategy tracks. This course promises to cover most of these challenges and opportunities, which makes me excited already. Fresh thinking, innovation, and out-of-the-box products are promising. With your help, I will inject new perspectives into my workplace and the industry in general. Besides, the reputation of LBS in Europe and globally is powerfully attractive. The institution stands alongside Ivy League business institutions and leaders in innovation. I am confident that it provides unparalleled opportunities for global networking.

I aspire to become the head of the company, which is the sole importer of 5 car brands in the country. To supervise the most talented workforces in the country, I need top-of-the-range skills and competencies as a leader.

Adventures and the discovery of new cultures are what excites me the most. I have been fortunate enough to live in 3 different countries and visit more than 30, ranging from Lapland in the north of Sweden to the Patagonian national parks in the south of Chile. Traveling and exploring is what continuously renews my sense of excitement and quenches my thirst for learning.

I'm also a sports fanatic. I play football twice a week and the box once a week. The remaining days I go to the gym to stay in good shape. During winter I spend my weekends in the mountains where I ski. My father competed in the skiing competition in the Olympic Games, making this outstanding sport growing up. I contested in Lebanon and also represented my country abroad on several occasions. I enjoy watching football games live. The fact that 5 of the actual 20 premier league teams are London based is excellent. I am also passionate about cars and big engines and love driving on racetracks. It gives me an adrenaline rush second to none.

I am interested in the global and local economy and the stock market. I've been trading all sorts of instruments such as Stocks, Options, and CFDs actively for the past five years with good returns. I'm fascinated by everything related to the advancement of technology, whether it's hardware or software. Also, I have always been a gamer. This hobby is quickly becoming a competitive advantage
