**Dreams in American Television Narratives** Cynthia Burkhead, 2013-05-23

*Dreams in Television Narratives* is the first comprehensive analysis of one of American television's most frequently utilized tropes: the dream. From its beginning, television has been a storytelling medium. Whether delivered to a live audience or played out on a sound stage, narratives and those who write them have always been the crux of the television program. While film can claim a long history of scholarly inquiry into the connection between film and dreams, no comprehensive research exists on the subject of television dreams. Locating its primary function as narrative, the author uses examples from American sitcoms and dramatic programs, analyzing the narrative functions of dreams using as its frame Carl Jung's narrative stages of the dream: exposition, development, culmination, and conclusion. While television dreams are analyzed throughout, case studies of the television programs *The Sopranos* and *Buffy the Vampire Slayer* are included to show in detail how dreams function throughout a television series. Includes a compendium of over 1000 television episodes that include dreams, a valuable tool for any television scholar or enthusiast.

Billboard, 2000-02-12 In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform. *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital, and mobile entertainment issues and trends.

*3000 Facts about TV Shows* James Egan, 2016-04-22 Dolly Parton produced *Buffy the Vampire Slayer*. Peter Dinklage has never read *Game of Thrones*, even though he is the star of the show. Samuel L. Jackson showed up unannounced on the set for *Breaking Bad* while he was dressed as his *Avengers* character Nick Fury and demanded to be on the show. The producers refused. In *Doctor Who*, the Twelfth Doctor's costume was inspired by David Bowie. Matthew Perry plays Chandler in *Friends*. He says he can't remember a single thing from the show throughout three seasons. In *The Simpsons*, Hans Moleman has died at least 15 times. Many mobsters contacted James Gandolfini to tell him his performance was excellent in *The Sopranos*, but warned him not to wear shorts in the show. Kenneth from *30 Rock* is immortal. The first episode of *Game of Thrones* was so bad it had to be reshot. Millie Bobby Brown was 11 when she was cast as Eleven in *Stranger Things*. The Tourette Syndrome Association praised the show *South Park* for its accurate portrayal of the Tourette's condition.

The Sex Is Out of This World Sherry Ginn, Michael G. Cornelius, Donald E. Palumbo, 2012-11-08 Science fiction can be translated into real unreality. More than a genre like fantasy, which creates entirely new realms of possibility, science fiction constructs its possibilities from what is real, from what is indeed possible or conceivably so. This collection then looks to understand and explore the unreal reality to note ways in which our culture's continually changing and evolving mores of sex and sexuality are reflected in, dissected by, and deconstructed through the genre of science fiction. This book is a collection of new essays with the general objective of filling a gap in the literature about sex and science fiction, although some work has gone before. None of it is recent. The essays herein explore the myriad ways in which authors, regardless of format (print, film, television, etc.) envision very different beings expressing this most fundamental of human behaviors.
