My purpose is to present my autobiography and how my boyhood growing up in the fifties and sixties effected my adulthood and core. Additionally, the book's purpose is to stimulate thought about leadership and what is and is not leadership. After Stethoscopes shares my thoughts on seemingly unrelated essay topics over the last five to six years and shares my experience with deep brain stimulation, an often unused early weapon in the battle with Parkinson's. DBS has been a miracle gift for me. The book weaves together and my life story with Parkinson's and my experience with leadership and leadership, at least my story thus far.
