American Foreign Policy and Political Ambition James Lee Ray,2013-08-20 In his eagerly awaited second edition of American Foreign Policy and Political Ambition James Ray revisits his deceptively simple premise that the highest priority of leaders is to stay in power Looking at how political ambition and domestic pressures impact foreign policymaking is the key to understanding how and why foreign policy decisions are made The text begins by using this analytic approach to look at the history of foreign policymaking and then examines how various parties inside and outside government influence decision making In a unique third section the book takes a regional approach not only covering trends other books tend to miss but giving students the opportunity to think comprehensively about how issues intersect around the globe from human security and democratization to globalization and pollution Guided by input from adopters and

reviewers Ray has thoroughly re organized the book and streamlined some coverage to better consolidate the historical institutional regional and topical chapters and focus the thematic lens of the book Ray has also brought the book fully up to date addressing the latest events in American foreign policy including the wars in Afghanistan and Iraq the killing of Bin Laden the WikiLeaks scandal and its aftermath the impact of social media on foreign policy and world affairs nuclear proliferation developments in U S Russian relations climate change and more *Social Seduction* SHARON TETILA COX,2015-10-27 The stories in this book are about ordinary everyday human beings as we are each challenged and often socially seduced biologically psycho socially spiritually and economically as biopsychosocial and spiritual beings These are also riveting true stories of the biopsychosocial and spiritual being who demonstrates the courage to stand strong during challenges of social seduction not just for oneself but also for others Many of us muster up the courage to do the things that are right according to our spiritual faith which for me includes my Christian ethics meaning even when we do not necessarily feel like doing them We find the courage to not do the things were being hedonistically enticed or seduced into doing when we know its not morally right or against our practicing spiritual ethics which clearly tells us not to do them While many biopsychosocial and spiritual beings pray some chant others meditate study tarry etc Often this is based upon our individually unique beliefs and practices we are allowed here in America My Christian Ethics however are rooted in the Science of Biblical Hermeneutics which truly empowers me with full armor and the sword of the spirit that sustains and keeps me steady allowing me to maintain my inner peace in the midst of storms including the ones shared in this book
