and there were held in parallel with DEXA also in Aix en Provence The resulting book was prepared with great effort Starting
with the preparation of submitted papers the papers went through the reviewing process The accepted papers were revised
to final versions by their authors and arranged to the conference program This year 241 papers were submitted and our
thanks go to all who have contributed The program committee and the supporting reviewers produced altogether about 730
referee reports on average three reports per paper and selected 89 papers for presentation The papers presented here
encompass the extensive domain of databases together with the other conferences and workshops of the DEXA event cluster
a vast part of applied computer science was covered In this way DEXA has blazed the trail At this point we would like to

Bauer, 2012-12-06 The Marktoberdorf Summer Schools on Informatics were started in 1970 with the intention to convene every second or third year a group of top researchers in computing devoted to preach their most recent results to an elite of advanced students young and most promising people and prepared to stand their questions criticism and suggestions. The themes of these Advanced Study Institutes under the sponsorship of the NATO Scientific Affairs Division varied slightly over the years oscillating more or less around Programming Methodology as the following list shows: 1970 Data Structures and Computer Systems 1971 Program Structures and Fundamental Concepts of Programming 1973 Structured Programming and Programmed Structures 1975 Language Hierarchies and Interfaces 1978 Program Construction 1981 Theoretical Foundations of Programming Methodology 1984 Control Flow and Data Flow Concepts of Distributed Programming 1986 Logic of Programming and Calculi of Discrete Design 1988 Constructive Methods in Computing Science 1989 Logic Algebra and Computation. Logic Algebra and Computation is the theme of the summer school to which this volume is devoted. It is the tenth in succession but it is also the first in a new series the blue series that is intended to alternate in future with the traditional the red series arrangement in fact the tenth summer school in the red series with the title Programming and Mathematical Method held in 1990 was the subject of celebrating both its serial number and the twenty years of
