Designing for the Homeless Sam Davis, 2004-11-29 An eye opener. The subject of homelessness has often been discussed but no one before has cut such a broad swath through the subject. There is no other book that deals with the architecture of homelessness. Robert Gutman, author of *Architectural Practice: A Critical View*, Davis lays out a compelling case for us all, especially designers, to get involved in solutions for the problem of homelessness. He discusses the plight of the homeless in terms that make them real, and his chapter on the costs of homelessness lays out the argument for involvement in very practical terms.
