Section: Mon Tues

Instructions

You should find a spreadsheet shared with you in Google Drive and titled "US History – All Key Terms." It contains all 146 key terms that we've covered since the beginning of the year, in AP US History and US History 2. (Wow.) You'll also find your name next to five or six of those terms.

Your task is to complete an identification – date, definition, and significance – for each key term you've been assigned. **Make sure your IDs are as accurate and comprehensive as possible – your classmates are relying on you to do a good job of this.** In many cases this will require that you update, revise, or totally rewrite what you did for homework. Use Foner and your coursepack as first resources, but if they don't have enough information, the Internet is your friend.

Your first-draft IDs are due by **2:30 PM on Thursday 10/22**. I will add comments by Thursday evening if I believe that revisions are necessary. If revisions are required, they are due by **5 PM on Friday 10/23**. I will compile them into a Quizlet set and make them available to all juniors by Saturday afternoon. You're welcome.

Over the weekend, as soon as the Quizlet set becomes available, you should start studying. The more you review, the more you'll get out of our benchmark review class.

Bryan Dewsbury, Susannah McGowan, Sheila S. Jaswal, Desiree Forsythe, 2024-09-24 Research demonstrates that STEM disciplines perpetuate a history of exclusion particularly for students with marginalized identities This poses problems particularly when science permeates every aspect of contemporary American life Institutions repeated failures to disrupt systemic oppression in STEM has led to a mostly white cisgender and male scientific workforce replete with implicit and or explicit biases Education holds one pathway to disrupt systemic linkages of STEM oppression from society to the classroom Maintaining views on science as inherently objective isolates it from the world in which it is performed STEM education must move beyond the transactional approaches to transformative environments manifesting respect for students social and educational capital We must create a STEM environment in which students with marginalized identities feel respected listened to and valued We must assist students in understanding how their positionality privilege and power both historically and currently impacts their meaning making and understanding of STEM *Audiovisual Materials* Library of Congress, 1982
