Zero History Blue Ant 3 William Gibson:

William Gibson and the Future of Contemporary Culture Mitch R. Murray, Mathias Nilges, 2021-03-15 William Gibson is frequently described as one of the most influential writers of the past few decades yet his body of work has only been studied partially and without full recognition of its implications for literature and culture beyond science fiction It is high time for a book that explores the significance and wide ranging impact of Gibson's fiction In the 1970s and 80s Gibson the Godfather of Cyberpunk rejuvenated science fiction In groundbreaking works such as *Neuromancer* which changed science fiction as we knew it Gibson provided us with a language and imaginary through which it became possible to make sense of the newly emerging world of globalization and the digital and media age Ever since Gibson's reformulation of science fiction has provided us not just with radically innovative visions of the future but indeed with trenchant analyses of our historical present and of the emergence and exhaustion of possible futures Contributors Maria Alberto Andrew M Butler Amy J Elias Christian Haines Kylie Korsnack Mathias Nilges Malka Older Aron Pease Lisa Swanstrom Takayuki Tatsumi Sherryl Vint Phillip E Wegner Roger Whitson Charles Yu *The City Since 9/11* Keith Wilhite, 2016-03-04 Charting the intersection of aesthetic representation and the material conditions of urban space *The City Since 9 11* posits that the contemporary metropolis provides a significant context for reassessing theoretical concerns related to narrative identity home and personal precarity In the years since the September 11 attacks writers and filmmakers have explored urban spaces as contested sites shaped by the prevailing discourses of neoliberalism homeland security and the war on terror but also haunted by an absence in the landscape that registers loss and prefigures future menace In works of literature film and television the city emerges as a paradoxical space of permanence and vulnerability and a convergence point for anxieties about globalization structural inequality and apocalyptic violence Building on previous scholarship addressing trauma and the spectacle of terror the contributors also draw upon works of philosophy urban studies and postmodern geography to theorize how literary and visual representations expose the persistent conflicts that arise as cities rebuild in the shadow of past ruins Their essays advance new lines of argument that clarify art's role in contemporary debates about spatial practices gentrification cosmopolitanism memory and history nostalgia the uncanny and the abject postmodern virtuality the politics of realism and the economic and social life of cities The book offers fresh readings of familiar post 9 11 novels such as Jonathan Safran Foer's *Extremely Loud Incredibly Close* but it also considers works by Teju Cole Joseph O'Neill Silver Krieger Colum McCann Ronald Sukenick Jonathan Lethem Thomas Pynchon Colson Whitehead Paul Auster William Gibson Amitav Ghosh and Katherine Boo In addition *The City Since 9 11* includes essays on the films *Children of Men* *Hugo* and the adaptation of *Extremely Loud Incredibly Close* chapters on the television series *The Bridge* *The Killing* and *The Wire* and an analysis of Michael Arad's *Reflecting Absence* and the 9 11 Memorial **Edinburgh Companion to Science Fiction and the Medical Humanities** Donna McCormack, Anna McFarlane, Gavin Miller, 2025-03-31 The medical humanities are becoming increasingly important

as their first wave is interrogated by a critical approach that aims to uncover the wider possibilities of the field In conversation with this debate this volume explores the ways in which science fiction studies can contribute to such discussions Science fiction challenges techno optimism and offers a non realist avenue for the expression of illness experience Science fiction also estranges its readers from their societies and the medical possibilities inherent in those societies inviting consideration of how medicine may be complicit with or opposed to other structures of power By engaging these concerns this Companion volume offers a unique viewpoint on the power of the future to shape the present

It Takes a Storyteller to Know a Storyteller Julia Nikiel,2023-01-23 If it is indeed impossible to think beyond capitalism then capital has become reality If global capitalism organizes reality through the stories it weaves capital is as strong as its fictions If capital is reality and capital is fiction then reality as such is fiction as well It is by reading this fiction for both patterns and inconsistencies that contemporary individuals can challenge global capital and unveil its hypocrisies and it is by fighting fiction with fiction i e projecting new realities such as those in the post millennial novels by William Gibson Douglas Coupland and Dave Eggers that people can imagine the world anew **The Military History of Ohio** A.
