**Multicampus University Systems** Ishmael I. Munene, 2014-08-27 In the face of increasing social demand and cutbacks in state budgetary support universities in African countries are now turning towards a multicampus system strategy As African governments have adopted neoliberal education policies that place premium on entrepreneurialism profit making privatization and markets as drivers of university development a reshaping of the academic work and organizational framework have taken place However little is known about the impact of this paradigm shift on access quality and governance in higher education This book fills the void in research and academic knowledge about the impact of the emerging university configurations in Africa It analyzes the paradox surrounding the performance of multicampus university systems as avenues of broadening university access but whose structural success may be qualitatively contested This book offers a refreshing examination of the African multicampus university system from both an African and global perspective It makes use of empirical data from Kenya collected during extensive fieldwork along with substantive library and documentary resources on the rest of the continents to fortify arguments and demonstrate important conclusions This allows for a comparative analysis of policies and strategies used in the establishment of campuses both within and beyond national boundaries in the continent and will be a welcome contribution to the existing repertoire on African universities *The Report: Kenya 2017* , As the largest economy in the EAC and COMESA in terms of GDP Kenya has positioned itself as a major economic power in sub Saharan Africa Traditionally a largely agrarian economy Kenya has quickly entrenched its position as a manufacturing logistics and technology hub in the region and this diversification forms a solid platform from which the government can generate economic growth over the coming years The resolution of the electoral process improving business confidence and strong private consumption are likely to support GDP expansion over 2018 and into 2019 In April 2018 the IMF estimated the economy would expand by 5.5% in 2018 and 6% in 2019 compared to 4.8% in 2017 *Competence-Based Curriculum and E-Learning in Higher Education* Keengwe, Jared, Gikandi, Joyce W., 2023-04-14 Higher education is characterized by ubiquitous digital technologies and e learning that are inevitably influencing the development of core competencies and professional skills requirements There is a need to focus on the synergy between responsive curriculum implementation and e learning delivery in the context of effective pedagogical practices and optimal integration of digital technologies Similarly we need to reexamine higher education practices towards innovative pedagogies and effective e learning design Competence Based Curriculum and E Learning in Higher Education brings together researchers in the field of education and professionals who design and deliver online learning in higher education to share paradigms perspectives insights contextualized experiences challenges and best practices Covering topics such as mobile learning activities student interaction promotion and social media technologies this major reference work is a comprehensive resource for instructional designers faculty administrators and educators of higher education students in teaching programs IT managers librarians

**The Status of Student Involvement in**

**University Governance in Kenya** Mulinge, Munyae M., Arasa, Josephine N., 2017-05-05 This book examines the concept of the democratization of governance in universities in Kenya with particular emphasis on students involvement in governance processes and decision making Data were collected from members of the student community utilizing a structured self administered questionnaire and from purposively selected key informants and focus group discussants drawn from Kenyatta University representing the public sector and the United States International University representing the private sector The guiding argument for the study was that shared governance one of the principles of good governance is critical in enabling the universities to deliver their visions and the missions effectively The results revealed that while in principle Kenyan universities have embraced democratic governance in which all stakeholders including students have a role to play in practice they continue to violate the core principles of good governance particularly shared governance Specifically students who are major stakeholders in university education are largely excluded from significant structures of governance thereby

limiting their influence and participation Although their representation is mainly provided via student self governance organs unions associations and or councils their effectiveness is undermined considerably by the lack of trust and confidence of the student body and the unending manipulation by top university administrators and external political actors Student active involvement in decision making is mainly confined to lower levels such as the school faculty and departmental programme The authors call for a paradigm shift in the involvement of students in the governance of universities in ways that discourage the current culture of tokenism and political correctness that characterizes public and private universities in Kenya

*In and Out of Africa* Joanna Boampong, 2012-11-30 New areas of intellectual endeavours including postcolonial transatlantic global and cultural studies have facilitated conversations that cut across traditional academic boundaries Indeed aside from precipitating more stimulating intellectual dialogues the advent of multi disciplinarity has also enabled literary and cultural theorists critics students and teachers to connect and to integrate diverse academic disciplines and schools of thought in the pursuit of a common task Of the many areas that have benefited from this trend it is perhaps in the realm of Afro Hispanic Luso Brazilian and Latin American studies that one notices a vibrant conversation that deals with the deep historical social economic and political bonds that have connected and still connect Africa to the Hispanic and Luso Brazilian worlds As these bonds acquire profound meanings in the late 20th and early 21st centuries scholars from diverse academic backgrounds find new ways to explore these connections It is in the spirit of this endeavour that the creative artists scholars of cultural and literary theory and critics whose works are presented in this anthology attempt to examine wide ranging themes from colonization slavery imperialism religion music and literature Most of the essays in this collection address long standing issues related to identity construction linguistic legacies religious and cultural beliefs and practices Others confront questions of migration and immigration configurations of female agency and Hispanic pedagogy in Africa and elsewhere What makes this volume unique and interesting is not only the idea of exploring examining and thinking the old in new ways and the new in old ways but also advancing the conversation of the relationship between Africa and the Afro Hispanic Luso Brazilian and Latin American worlds through different intellectual and artistic prisms

**Kenya After 50** Mickie Mwanzia Koster, Michael Mwenda Kithinji, Jerono P. Rotich, 2016-04-08 This book explores the key milestones in education gender and policy that Kenya has achieved since independence the challenges of this experience and the future prospects This edited collection of chapters also aims to illuminate the lessons learned from the experiences of the postcolonial period as well as postulate on the way forward Through this exploration of the Kenyan experience since independence the authors present an optimistic view that despite the many obstacles and challenges the country still has promising prospects as a nation

**Quality Education and International Partnership for Textile and Fashion** Xinfeng Yan, Lihong Chen, Hafeezullah Memon, 2023-07-02 This book mainly focuses on SDG4 Quality Education and aims to understand the past present and future of textile fashion apparel and related study majors of East African countries Professors and field experts in textile

engineering of selected countries describe the potential and prospects of textile education and how it can lead to internationalization in the various chapters It also discusses the textile university alliance and the potential for international education related to textiles in the developing region With updated illustrations images data graphs and tables this book serves as a reference book for universities with textile engineering major in countries throughout the world **Emerging Dynamics in the Provision of Private Higher Education in Africa** Wondwosen Tamrat,Damtew Teferra,2024-05-29 This edited book examines the private higher education PHE sector in African countries Reports suggest that private institutions across the continent outnumber their public counterparts yet there has been little scholarly investigation into this emerging phenomenon The book therefore seeks to document map and analyse key trends and contemporary themes in the PHE sector as well as chart historical developments policy and regulatory frameworks As a whole it provides the reader with in depth knowledge rich perspectives and robust analyses from leading authorities in the field Contributions from all sub regions combine thematic issues with shaping discourse on the topic and the discussions are undertaken in the context of global perspectives The book will be of interest to academics researchers postgraduate students policy makers analysts and development partners interested in African higher education and PHE in particular *Play Like a Girl* Ellie Roscher,2017-07-18 Growing up and living in Kibera Kenya Abdul Kassim was well aware of the disproportionate number of challenges faced by women due to the extreme gender inequalities that persist in the slums After being raised by his aunts mother and grandmother and having a daughter himself he felt that he needed to make a difference In 2002 Abdul started a soccer team for girls called Girls Soccer in Kibera GSK with the hope of fostering a supportive community and providing emotional and mental support for the young women in the town The soccer program was a success but the looming dangers of slum life persisted and the young women continued to fall victim to the worst kinds of human atrocities Indeed it was the unyielding injustice of these conditions that led Abdul to the conclusion that soccer alone was not enough to create the necessary systemic change In 2006 after much work the Kibera Girls Soccer Academy KGSA was established with their first class of 11 girls and 2 volunteer teachers Today KGSA is composed of 20 full time staff provides a host of artistic and athletic programs for more than 130 students annually and continues to expand By providing academics inside and outside of the classroom along with artistic and athletic opportunities KGSA inspires the young women of Kibera to become advocates for change within their own communities and for Kenya as a whole *Play Like a Girl* tells the KGSA story through Abdul s voice and vision and the stories of key staff and students It is written by Ellie Roscher who spent 2 summers doing research at KGSA and several years writing this book **Parents** ,2008 **Handbook of Academic Integrity** Sarah Elaine Eaton,2023-12-04 The book brings together diverse views from around the world and provides a comprehensive overview of academic integrity and how to create the ethical academy At the same time the Handbook does not shy away from some of the vigorous debates in the field such as the causes of academic integrity breaches There has been an explosion of interest in

academic integrity in the last 20 30 years New technologies that have made it easier than ever for students to cut and paste coupled with global media scandals of high profile researchers behaving badly have resulted in the perception that plagiarism is on the rise This in combination with the massification and commercialisation of higher education has resulted in a burgeoning interest in the importance of academic integrity how to safeguard it and how to address breaches appropriately What may have seemed like a relatively easy topic to address students copying sources without attribution has in fact turned out to be a complex interdisciplinary field of research requiring contributions from linguists psychologists social scientists anthropologists teaching and learning specialists mathematicians accountants medical doctors lawyers and philosophers to name just a few Because of this broad interest and input this handbook serves as the single authoritative reference work which brings together the vast growing interdisciplinary and at times contradictory body of literature For both established researchers practitioners and those new to the field this Handbook provides a one stop shop as well as a launching pad for new explorations and discussions

**Kenya Telephone Directory** ,2008 *Welding* Sadek Alfaro,Wojciech Borek, Błażej Tomiczek,2021-01-14 The welding process is used by manufacturing companies worldwide Due to this broad application many studies have been carried out in various fields to improve the quality and reduce the cost of welded components and structures Welding is a complex and non linear physical and mechanistic process This book relates the importance of automation and control in welding processes highlights some modern processes and shows among other influential welding factors the importance of metal thermomechanical processing studies

**Women's Contribution to Higher Education and Social Transformation** Lucy A. Wakiaga,2022-05-16 This book provides deep insights about women in higher education and their contributions to society Using Kenya as a case study it places women in higher education at the center of the socioeconomic political and cultural discourse both within and outside the higher education institution It is notable that even with the progress made both in Kenya and globally gender considerations in social economic political and cultural spheres is still minimal In higher education gender imbalance is still distinct in varied areas such as career advancement leadership mentorship and scholarship opportunities In society women s efforts still seem to go unnoticed The aim of these chapters therefore is to share women s research in higher education and in society especially innovative policy and practice concepts all aimed at contributing to social transformation
