Zimsec November 2business Studies Paper 1:

Zimbabwe H. Besada, 2011-01-03 Formerly one of Africa's most promising economies Zimbabwe has begun a process of economic reconstruction after decades of political turmoil and economic mismanagement. The advent of a national unity government in February 2009 launched a new but still tentative era of political stability. The government has a daunting political and economic agenda. Top priorities include restoring the rule of law, demonstrating fiscal responsibility and putting in place macroeconomic and structural reforms to win the confidence of domestic and international investors. An optimistic time frame for its socio-economic recovery is now estimated to be at least ten years. *Zimbabwe Picking Up the Pieces* chronicles the steps that led to the downturn of the Zimbabwean state and economy before assessing what can be done to resuscitate a once thriving society. Leading experts from and on the region explore the country's options on key governance issues from strengthening institutions to addressing food security to promoting private sector development to mobilizing donor country assistance. This collection offers a unique glimpse into a fragile state and the severe costs Zimbabweans have and will have to endure if there is to be any hope of recovery.

'Progress' in Zimbabwe? David Moore, Norma Kriger, Brian Raftopoulos, 2013-09-13 Zimbabwe's severe crisis and a possible way out of it with a transitional government and the new era for which it prepares the ground demands a coherent scholarly response. Progress can be employed as an organising theme across many disciplinary approaches to Zimbabwe's societal devastation. At wider levels too the concept of progress is fitting. It underpins modern liberal and radical perspectives of development pervading the social sciences and humanities. Yet perceptions of progress are subject increasingly to intensive critical inquiry. Their gruesome end is signified in the political projects of Robert Mugabe and ZANU PF. John Gray's *Black Mass: Apocalyptic Religion and the Death of Utopia* indicates this. It is expected that participants will engage directly in debates about how the idea of progress has informed their disciplines from political science and history to labour and agrarian studies and then relate these arguments to the Zimbabwean case in general and their research in particular. This book was published as a special issue of the *Journal of Contemporary African Studies*.

Zimbabwe's New Diaspora JoAnn McGregor, Ranka Primorac, 2010-06-01 Zimbabwe's crisis since 2000 has produced a dramatic global scattering of people. This volume investigates this enforced dispersal and the processes shaping the emergence of a new diaspora of Zimbabweans abroad, focusing on the most important concentrations in South Africa and in Britain. Not only is this the first book on the diasporic connections created through Zimbabwe's multifaceted crisis but it also offers an innovative combination of research on the political, economic, cultural and legal dimensions of movement across borders and survival thereafter, with a discussion of shifting identities and cultural change. It highlights the ways in which new movements are connected to older flows and how displacements across physical borders are intimately linked to the reworking of conceptual borders in both sending and receiving states. The book is essential reading for researchers, students in migration, diaspora and postcolonial literary studies.

International Marketing

Shaoming Zou, Huifen Fu, 2011-01-27 Features the papers that report a variety of studies examining international marketing behaviour of firms from emerging markets market environments and consumer behaviour in emerging markets and MNCs international marketing in emerging markets *Zimbabwe's Migrants and South Africa's Border Farms* Maxim Bolt, 2015-09-25 During the Zimbabwean crisis millions crossed through the apartheid era border fence searching for ways to make ends meet Maxim Bolt explores the lives of Zimbabwean migrant labourers of settled black farm workers and their dependants and of white farmers and managers as they intersect on the border between Zimbabwe and South Africa Focusing on one farm this book investigates the role of a hub of wage labour in a place of crisis A close ethnographic study it addresses the complex shifting labour and life conditions in northern South Africa's agricultural borderlands Underlying these challenges are the Zimbabwean political and economic crisis of the 2000s and the intensified pressures on commercial agriculture in South Africa following market liberalization and post apartheid land reform But amidst uncertainty farmers and farm workers strive for stability The farms on South Africa's margins are centers of gravity islands of residential labour in a sea of informal arrangements Extractive Industry Indigenisation in Zimbabwe Kennedy Manduna, 2025-09-25 This book explains how and why Zimbabwe's extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country Indigenisation of Zimbabwe's extractive industries was intended to address mining inequalities by transferring wealth from rich non Indigenous mining capital to disadvantaged Indigenous citizens and communities This policy however was a response to political economic and social crises posed by the international isolation of Zimbabwe's government following the controversial Fast Track Land Reform Programme in 2000 2003 An intervention therefore which promised to address inequalities has thus been hampered by corruption co optation and collusion which has led to it not only failing to address uneven development but in actual fact worsening the situation By examining the hidden structures and infrastructures of power capital and minerals and placing extractive industry Indigenisation in capitalism this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in general and the struggle for economic sovereignty in particular This book steers readers more broadly to look for new and diversified ways of empowering Indigenous populations and their communities through mining Indigenisation in ways that do not threaten economic and political stability This book will be of great interest to students and scholars of the extractive industries natural resource management African politics and African development **Structural Adjustment and the Working Poor in Zimbabwe** Peter Gibbon, 1995 Presents three studies which examine the relationship between structural adjustment and changes in the social conditions of the working poor in Zimbabwe between 1990 and 1994 Includes a survey of conditions faced by formal sector workers in 18

larger scale industrial companies in 1993 a survey of the trading patterns consumption and intra and interhousehold relationships of 174 urban women traders in 1992 and 1993 and a study of changes in health and health services among 327 urban households and 300 households in a peasant farming area in 1992

Urban Geography in Postcolonial Zimbabwe Abraham R. Matamanda, Verna Nel, Innocent Chirisa, 2021-05-07 This interdisciplinary book provides a cross sectoral and multi dimensional exploration and assessment of the urban geography perspectives in Zimbabwe Drawing on work from different disciplines the book not only contributes to academia but also seeks to inform urban policy with the view of contributing to the national aspirations of Zimbabwe attaining middle income status by 2030 Adopting a multi dimensional assessment that transcends disciplines such as urban and regional planning human and physical geography urban governance political science economics and development studies the book provides a background for co production concerning urban development in the Global South The book contributes into its analysis of the institutional and legislative framework that relates to the urban geography of Zimbabwe as these are responsible for the evolution of the urban system in the country The connections among different sectors and issues such as environment economy politics and the wider objectives of the SDGs especially goal 11 aspiring to create sustainable communities by 2030 are explored The success stories relating to urban geography in Zimbabwe are identified together with the best possible practices that may inform urban planning policy and management

Will Africa Feed China? Deborah Brautigam, 2015-10-07 Is China building a new empire in rural Africa Over the past decade China s meteoric rise on the continent has raised a drumbeat of alarm China has 9 percent of the world s arable land 6 percent of its water and over 20 percent of its people Africa s savannahs and river basins host the planet s largest expanses of underutilized land and water Few topics are as controversial and emotionally charged as the belief that the Chinese government is aggressively buying up huge tracts of prime African land to grow food to ship back to China In *Will Africa Feed China* Deborah Brautigam one of the world s leading experts on China and Africa probes the myths and realities behind the media headlines Her careful research challenges the conventional wisdom as she shows Chinese farming investments are in fact surprisingly limited and land acquisitions modest Defying expectations China actually exports more food to Africa than it imports Is this picture likely to change African governments are pushing hard for foreign capital and China is building a portfolio of tools to allow its agribusiness firms to go global International concerns about land grabbing are well justified Yet to feed its own growing population rural Africa must move from subsistence to commercial agriculture What role will China play Moving from the halls of power in Beijing to remote irrigated rice paddies of Africa *Will Africa Feed China* introduces the people and the politics that will shape the future of this engagement the state owned Chinese agribusiness firms that pioneered African farming in the 1960s and the entrepreneurial private investors who followed them Their fascinating stories and those of the African farmers and officials who are their counterparts ground Brautigam s deeply informative deftly balanced reporting Forcefully argued and empirically rich *Will Africa Feed China* will

be a landmark work shedding new light on China's evolving global quest for food security and Africa's possibilities for structural transformation *Cumulated Index Medicus*, 1986

Torre,2010-01-01 The question of how to treat commodity production and how to manage recurrent cycles of booms and busts has always been a challenge for policymakers in commodity dependent countries including many in the LAC region These challenges have led to allegations of a commodity curse that retards development in these countries but as of yet there is no consensus as to whether such a curse exists and if so how can negative effects be minimized This book contributes to this debate Much of the report is focused on an examination of specific channels through which commodity dependence may affect the economic and institutional development of countries This includes broadly 4 sets of concerns one set dealing with the direct economic effects of commodity dependence and the implications for long term growth one dealing with the interactions between commodity production and the rents it generates on the one hand and a country s institutions on the other a third dealing with the macroeconomic challenges of managing the volatility of revenue flows including the distributional implications at the household level posed by cyclicity of social spending and a final set associated with potential negative environmental and social impacts The book finds that some commonly accepted negative effects of dependence on natural resources are largely myths while some are realities But all can be managed and the book draws on the best available information in existing literature as well as original analysis to provide practical advice on how to do so It also presents descriptive facts and analysis of the impacts in LAC of the recent commodity boom helping the reader understand the implications for the region s development and policies It should be of great interest to policy makers and analysts as well as laypersons interested in the economics of commodity markets and their role in economic development

Opportunities and Pitfalls of Corporate Social Responsibility Shame Mugova,Paul R. Sachs,2019-05-30 This book addresses key aspects of corporate social responsibility CSR and explores them from a variety of perspectives in a case study on the Marange diamond mines in Zimbabwe The business case of the Marange mines is presented to demonstrate the challenge of practicing social responsibility while considering and balancing the needs of a developing nation environmental protection community involvement and international business Lessons learned from the case study will help business leaders and strategists in developing countries and multinational corporations to better understand and employ CSR principles so as to enhance sustainability and social impact Further the book provides a unique combination of academic industrial and local approaches *List of Recent Periodical Articles* Joint Bank-Fund Library,1990-02 Enterprising Africa Stephen

Dobson,Paul Jones,Daniel Agyapong,Gideon Maas,2020-12-30 Enterprising Africa explores the future opportunities challenges growth areas and key themes that will shape entrepreneurship in the African continent over the next decade Entrepreneurship can be the key to unlock resilient growth but only if it is driven by both socially productive and growth oriented new businesses The book considers entrepreneurship as an enabler for socio economic growth and development in Africa especially in the context of youth unemployment and increasing youth population for which the traditional and indeed emerging industrial sectors will not be able to produce sufficient jobs to meet demand Organised around three thematic parts

Part I covers the notion of inclusive growth and the role that entrepreneurs can play supporting this Part II considers the dynamic between entrepreneurs and the environment since social economic and environmental concerns need to build upon each other rather than vie for recognition Finally Part III offers chapters exploring policy contexts and the wider institutional ecosystems that need to be developed and enhanced to ensure a strong and vibrant environment for the future entrepreneurs of Africa to thrive Edited and authored by leading experts in the field this fascinating text will be of interest to academics as well as students of International Transformational and Social Entrepreneurship and International and African Business

Uneven Zimbabwe Patrick Bond,1998 Uneven Zimbabwe examines the influence of domestic and international financial markets and financiers in uneven development in Zimbabwe using and contributing to the tools of radical political economy Theoretically Bond begins with criticism of the classical Marxist concepts of finance capital for focusing on institutional characteristics and failing to grasp underlying dynamics Instead as economic crisis tendencies emerge the power of finance periodically intensifies temporarily displacing crisis through time and space and across geographical scales But the limits of the financial solution become evident when paper assets delink from the productive assets they are meant to represent as well as in the role that finance plays in amplifying uneven development across different economic sectors spaces and scales

The Service Sector and Economic Development in Africa Evelyn F. Wamboye,Peter Nyaronga,2018-09-04 The service sector accounts for a huge proportion of global employment and is the biggest driver of gross domestic product in developing nations Yet there has been little research uncovering its scope potential and implications on sustained and inclusive economic growth This is especially true for Africa which has seen a strong growth trajectory in recent years This book presents a new frontier of research offering insightful perspectives on the 21st century realities of the service sector and its effect on economic development in Africa The analysis presented here will be of relevance to academics and policymakers with an interest in Africa s role in the global economy

The Palgrave Encyclopedia of Imperialism and Anti-Imperialism Immanuel Ness,Zak Cope,2016-04-29 The Palgrave Encyclopedia Imperialism and Anti Imperialism objectively presents the prominent themes epochal events theoretical explanations and historical accounts of imperialism from 1776 to the present It is the most historically and academically comprehensive examination of the subject to date

The Regulation of the Legal Profession in Ireland Maeve Hosier,2014-08-17 The Regulation of the Legal Profession in Ireland is a new and insightful exploration of history controversy and reform relating to the Irish legal system During recent legislative debate over a professional reform bill Alan Shatter then the Minister of Justice in Ireland publicly called this study in its earlier form as a dissertation marvellous and stated that it should be compulsory reading for us all He noted that the thesis sets out the history of the legal profession and how it evolved It evolved continually until approximately 1870 and then went into paralysis and nothing has changed since It is extraordinarily curious that people think the world stopped in 1870 Professor Laurent Pech formerly of the School of Law at NUI Galway and now Head of the Law Department at

Middlesex University London has stated that this study makes a decisive contribution to the on going scholarly and policy debates on this issue by evaluating the present regulatory framework and offering a number of suggestions to improve it in a context of increasing transnationalisation of the market for legal services He added that Hosier s innovative approach to the problem of lawyers misconduct is in particular worth noting This aspect of her work has the potential to help alleviate a problem which has been extremely costly for both the legal profession and wider society alike Her doctoral research also provides a valuable insight into the impact of the Troika upon the regulation of the legal profession in so called bailed out countries Professor Pech concluded that the author should be congratulated for having made an exceptional contribution to the current debate on the regulation of the legal profession both nationally and internationally I have no doubt that her original and thought provoking work will be useful to policy makers and scholars alike This book features Professor John Flood s new substantive introduction explaining the worldwide implications of professional reform efforts the financial crisis that precipitated them and the relation to regulation of the legal profession in other countries It also includes the author s notable examination of the effect of the Troika s bailout conditions on law reform possibilities in Ireland This part of the book was presented in the US at the 2013 annual conference of the Law and Society Association Finally the book adds a section on 2014 developments in reform efforts in Ireland A powerful new addition to the Dissertation Series from Quid Pro Books

how to approach topology optimization in ansys aim - Sep 19 2022

web oct 25 2017 in simplest words topology optimization is a numerical technique that optimizes material layout for a given part or assembly for a given set of loads and boundary conditions such that the resulting layout meets a prescribed design or manufacturing spec

hybrid manufacturing of topology optimized machine tool parts - Jun 28 2023

web dec 13 2021 abstract load oriented lightweight structures are commonly designed based on topology optimization for machine tool parts they enable the reduction of moving masses and therefore increase the resource and energy efficiency of production systems

structural analysis and optimization of machine structure for the - Jul 30 2023

web feb 1 2023 topology optimization of machine tool structure was used to improve the behavior of machine tool although a minimum member size of 25 mm was used members with dimension considerably less than the given value were also obtained

finite element analysis and structure optimization of a gantry type - Mar 26 2023

web aug 10 2023 the complete structural analysis topological optimization geometry validation parametric optimization approach was carried out using ansys fea packages and the design of experiments doe module

an ansys apdl code for topology optimization of structures - May 28 2023

web jun 12 2020 this paper presents a 390 line code written in ansys parametric design language apdl for topology optimization of structures with multi constraints it adopts the bi directional evolutionary structural optimization method with the proposed dynamic evolution rate strategy der beso to accelerate the iteration convergence

ansys topology optimization lightweighting shape optimization - Nov 21 2022

web learn how ansys discovery provides rapid design exploration through structural optimization and how topology optimization capabilities can apply to multiple load cases and physics including modal and structural simulations

topology optimization using ansys mechanical - Feb 10 2022

web topology optimization is the numerical technique used to obtain the optimal layout of structural components by determining the areas of the parts that can be removed to maximize stiffness while reducing weight and keeping maximum stress below a

topology optimization for multi axis machining sciencedirect - Jan 24 2023

web jul 1 2019 this paper presents a topology optimization approach that incorporates restrictions of multi axis machining processes a filter is defined in a density based topology optimization setting that transforms an input design field into a geometry that can be manufactured through machining

structural optimization of machine tools including the static and - Apr 14 2022

web jan 1 2003 the use of topology optimization is helpful to obtain systematic and proper solution variants for a given static and dynamic design problem those solutions which can be generated automatically

structural analysis simulation software ansys - Jul 18 2022

web ansys structures high level features with our comprehensive suite of structural analysis tools engineers can simulate shock drop and vibration impact and penetration smashes and crashes occupant safety heat transfer solder

topology optimization missing from toolbox ansys learning forum - Jan 12 2022

web apr 20 2022 we have changed the name of topology optimization to structural optimization this tool is available in the student version please use this tool

topology optimization in ansys grabcad tutorials - Feb 22 2023

web mechtasia 20 may 2021 07 49 pm in this video tutorial i will show you the complete process of running a topology optimization analysis in ansys from this video tutorial will learn how to run a topology optimization analysis design validation and mesh recommendations for an optimized body to run a validation analysis on it

ansys mechanical topology optimization ansys training - Dec 23 2022

web this course is designed to provide the knowledge about the optimization workflow in ansys workbench the complete end to end procedure is shown from the original cad to the final calculation on the optimized shape the course includes information about the optimization methods and the general theory it shows the basic as well as the

mass reduction using structural optimization ansys webinar - Mar 14 2022

web this tips and tricks webinar demonstrates how to use structural formerly topology optimization to for practical purposes relating to mass reduction in ansys this quick hitting webinar features a brief overview of the two most common optimization methods in ansys mechanical density based level set followed by a live demo walkthrough

topology optimization and casting a perfect combination ansys - May 16 2022

web topology optimization and casting perfect combination using topology optimization and structural simulation helps a casting company develop better products faster by thorsten schmidt technical director heidenreich harbeck ag moelln germany and boris lauber application engineer fe design gmbh karlsruhe germany

topological optimization by ansys 18 1 for the additive - Jun 16 2022

web feb 7 2022 the evolutions of ansys 18 1 notably the improvements made to high performance computing hpc will allow users to design faster and more intelligently from the very first stages of design fig 1 fig 1 comparison of the classical design approach and the design approach using topological optimization

study on kinematic structure performance and machining mdpi - Oct 21 2022

web apr 10 2023 in this study we used topology optimization for effective structural optimization designs the optimal conditions for topology optimization included lightweight structures which resulted in reduced structural deformation and increased natural frequency

structural topology optimization make your design better ansys - Apr 26 2023

web how topology optimization capabilities account for manufacturing constraints and can apply to multiple load cases and physics including modal and structural simulations how to expand a project to ansys mechanical for more advanced
