U.S. Policy, U.S. Dept. of State, Washington, D.C., July 12-13, 1979 ,1979 Rhodes and Rhodesia Arthur Keppel-Jones,1983-11-01 The British South Africa Company and the irregularity of its financial and political operations are dealt with in detail Keppel Jones also discusses the development in the midst of the indigenous population of an alien white society and state from their crude beginnings to their emergence in a form still recognizable today The reader is led to conclude that by 1902 Southern Rhodesia was already set on the road that would lead to the upheavals of the second half of the twentieth century The author examines the racial consciousness and prejudice of the white society and addresses an important question why did the imperial government grant a royal charter to the BSA Company The facts show conclusively that the imperial government had little interest in Central Africa or care for its fate except when foreign competition appeared Keppel Jones also reveals the important role played by black troops employed by the Company in suppressing the rebellions of 1896 7 For opposite reasons neither blacks nor whites have been willing to recognize this on the other hand the habit of the men on the spot of making and carrying out decisions without regard to their superiors in London is a commonplace of imperial history One of the main themes of the book is the tension between the unofficial imperialists straining at the leash and the Colonial Office struggling to hold them back Rhodes and Rhodesia is based on extensive use of public records mainly in the Public Record Office London and the National Archives of Zimbabwe of collections of private papers and of contemporary published works **An Investigation of Secondary School Language Teachers' Conceptions of Literacy and how These Conceptions Relate to Literacy Instruction in Zimbabwe** Albert Natsa,1994

Ministry of Education,1980 **Mobile Africa** Rijk van Dijk,Dick Foeken,Mirjam de Bruijn,2021-07-26 This anthology deals with the complexity variety and experience of all the forms of mobility we witness today in Sub Saharan Africa Three sets of issues are being discussed First the concept of mobility itself is considered and how it is conceived of in distinction from sedentarity Second which forms of mobility can be distinguished not only from the perspective of Western social sciences but also from the perspective of people s own experiences ideas notions etc Social science in Africa has particularly focused on rural urban migration but it is clear that there are many other forms as well Third the concept of mobility concerns not only geographical space but there are other spaces to consider as well In addition to forms of mobility there is a mobility of forms in which the perception of those other spaces plays a crucial role In short the book intends to turn the whole notion of mobility as a supposedly rupturing phenomenon on its head emphasizing

that rather through travelling connections are established and continuity is experienced We are challenged to delve into the traveller s mind to think and follow their multi spatial livelihoods and to explore what it means to people if they move in a variety of spaces
