(ed),Mafongoya, P.L. (ed),2017-11-15 Climate change presents a profound challenge to food security and sustainable development in Africa Its negative impacts are likely to be greatest in the African region which is already food insecure In the face of global climate change and its emerging challenges and unknowns it is essential that decision makers base policies on the best available knowledge In recent years the knowledge of local and indigenous people often referred to as indigenous knowledge IK has been increasingly recognised as an important source of climate knowledge and adaptation strategies   *Climate Change and Food Security* Elizabeth Thomas Hope,2016-12-08 Global climatic change has resulted in new and unpredictable patterns of precipitation and temperature the increased frequency of extreme weather events and rising sea levels These changes impact all four aspects of food security availability accessibility stability of supply and appropriate nourishment as well as the entire food system food production marketing processing distribution and prices Climate Change

and Food Security focuses on the challenge to food security posed by a changing climate The book brings together many of the critical global concerns of climate change and food security through local cases based on empirical studies undertaken in Sub Saharan Africa and the Caribbean Focusing on risk reduction and the complex nature of vulnerability to climate change the book includes chapters on the responsiveness of farmers based on traditional knowledge as well as the critical phenomenon of food insecurity in the urban setting Other chapters are devoted to efforts made to strengthen resilience through long term development with interventions at the regional and national levels of scale It also examines cross cutting themes that underlie the strategies employed to achieve food security including equity gender livelihoods and governance This edited volume will be of great interest to students and scholars of climate change food security environmental management and sustainable development   A Non-Technical Guide to International Accounting Roger Hussey,Audra Ong,2019-11-08 Business has become more international and more complex Whether you are a manager a student or someone generally interested in corporate financial information you want information and you want to understand that information Companies in all countries are required to generate financial information if for no other reason than to settle their tax obligations If you are interested in the larger companies such as those listed on a stock exchange they must make financial information public and the nature and type of that information is strictly regulated Companies must comply with accounting standards Many countries use the International Accounting Standards issued by the IFRS Foundation This is a not for profit international organization that has developed a single set of high quality global accounting standards These standards can be complex but this book explains clearly the main requirements   Thermal Energy Yatish T. Shah,2018-01-12 The book details sources of thermal energy methods of capture and applications It describes the basics of thermal energy including measuring thermal energy laws of thermodynamics that govern its use and transformation modes of thermal energy conventional processes devices and materials and the methods by which it is transferred It covers 8 sources of thermal energy combustion fusion solar fission nuclear geothermal microwave plasma waste heat and thermal energy storage In each case the methods of production and capture and its uses are described in detail It also discusses novel processes and devices used to improve transfer and transformation processes   Small reservoirs in Africa: a review and synthesis to strengthen future investment Saruchera, D.,Lautze, Jonathan,2019-11-04   **Handbook of Research on Protecting and Managing Global Indigenous Knowledge Systems** Tshifhumulo, Rendani,Makhanikhe, Tshimangadzo Justice,2021-10-08 Indigenous knowledge systems IKS are a combination of knowledge systems encompassing technology social economic and philosophical learning or educational legal and governance systems The lack of documentation of these systems presents a problem as the knowledge is fading away over time In response it is essential that policies and strategies are undertaken to ensure that these systems are protected and sustained for generations to come The Handbook of Research on Protecting and Managing Global Indigenous Knowledge Systems is a comprehensive reference source that works to

preserve indigenous knowledge systems through research Focusing on key concepts such as tools of indigenous knowledge management and African indigenous symbols the book preserves and promotes indigenous knowledge through research and fills the void staff and students within the field of indigenous knowledge systems face with the current lack of research and resources This book is ideal for university students lecturers researchers academicians policymakers historians sociologists and anyone interested in the field of indigenous knowledge systems   Recent Advances in Restoration, Preservation and Eco-Morphophysiology of Plants Under Integrated Management Approaches and Current Climate Change Taimoor Hassan Farooq,2023-07-04   **The Zoological Record** ,1997
