Information and Communications Technology in STEM Education Umesh Ramnarain,Mdutshekelwa Ndlovu,2023-07-21 This timely book presents the latest scholarly research on the integration of Information Communications Technology ICT for enhanced STEM education in African schools and universities Featuring critical discussion and illustration of key data led arguments this volume gives a comprehensive picture of the breadth complexity and diversity of issues present in different African countries It highlights a diverse range of topics such as approaches to ICT integration the use of digital technologies to support inquiry based learning teacher development and contextual issues in ICT integration for STEM education Chapters feature contributions and shared experiences from prominent science educators and researchers from across African regions and demonstrate findings and reflections on emerging trends pedagogical innovations and research informed practices on ICT integration in STEM education Offering cutting edge research on STEM and digital

education in Africa the book will appeal to researchers postgraduate students and scholars in the fields of STEM education ICT education digital education and pedagogy Educating Professionals for Network-Centric Organisations Peter Juliff,Tsurayuki Kado,Ben-Zion Barta,2013-06-05 The short history of the International Working Conference on Educating Professionals for Network Centric Organizations is a good illustration of the tremendous rate of development of global networking its impact and of its deep penetration into management of business industry and administration In 1996 when the theme and name of the conference had been set there was yet no heavy use of networks in the fields just mentioned However it has been already established well enough to enable those with a visionary sense to feel that it will be an important subject and it could be an interesting theme for a conference to be held within two years It seemed a risky decision at the time but it turned out to be very successful when conducted in 1998 It has been stated that it took until 1997 for the business world to discover the Internet In less than two years the Internet and the Intranets are a vital component for running major parts of the business world This fast pace puts some pressure on writing papers and holding a conference effort has to be made to have meaningful contents despite the changes A time span of 9 months between writing a paper and having it published seemed once to be very short but it is not so any more when referring to a dynamic issue like global networking **The British National Bibliography** Arthur James Wells,1998 **Maize research for stress environments** ,1995

Data-Driven Modelling and Predictive Analytics in Business and Finance Alex Khang,Rashmi Gujrati,Hayri Uygun,R. K. creation This is done through elaboration of the African interpretation of smartness using tools for smart solid waste management e governance smart energy and smart infrastructure The case studies selected and each chapter explain a different dimension of the smart city concept and offer innovative solutions to problems of rapid urbanization It lays the theoretical foundation for further research on smart cities and rural areas in Africa Cyclones in Southern Africa Godwell Nhamo, David Chikodzi, 2021-09-28 Tropical cyclones in Southern Africa also known as hurricanes or typhoons in other regions of the world is a hot subject for academic research This focus has been magnified by the need to consider tropical cyclones in the context of other global development agendas that includes the 2030 Agenda for Sustainable Development and its inseparable 17 Sustainable Development Goals SDGs the Paris Agreement the Sendai Framework for Disaster Risk Reduction and Habitat III s New Urban Agenda The ambitious SDGs challenge global and community leaders to make sure development addresses the nexus among poverty inequality and employment creation as well as care for the earth and its natural resources and biodiversity The SDGs further present an agenda to eradicate hunger bring quality education and sustain water and sanitation The infrastructure development human settlements sustainable consumption and production climate change biodiversity and the ocean blue economy agendas are also pitched Lastly the 2030 Agenda for Sustainable Development encourages partnerships on delivering various programmes and projects at all spatial levels However as tropical cyclones continue to make multiple landfalls and ravage Southern Africa and other parts of the world the achievement of the 2030 Agenda for Sustainable Development is threatened To this end this book addresses this gap by documenting the implications of tropical cyclones drawing examples and case studies from recent tropical cyclones such as cyclone Idai and cyclone Kenneth that resulted in catastrophic impacts in 2019 The book comes as part of a series with three volumes The other volumes include Cyclones in Southern Africa Vol 1 Interfacing the Catastrophic Impact of Cyclone Idai with SDGs in Zimbabwe and Cyclones in Southern Africa Vol 2 Foundational and Fundamental Topics Given the foregoing the book is suitable as a read for several professionals and disciplines such as tourism and hospitality studies economics sustainable development development studies environmental sciences arts geography life sciences politics planning and public health **ICT Education** Salah Kabanda, Hussein Suleman, Stefan Gruner, 2018-12-31 This book constitutes the refereed proceedings of the 47th Annual Conference of the Southern African Computer Lecturers Association on ICT Education SACLA 2018 held in Gordon s Bay South Africa in June 2018 The 23 revised full papers presented together with an extended abstract of a keynote paper were carefully reviewed and selected from 79 submissions The papers are organized in topical sections playfulness media and classrooms academia and careers teaching programming adaptation and learning teamwork and projects learning systems topic teaching Subject Catalog, 1980 Library of Congress, 1980 *Culture and Rural-Urban Revitalisation in South Africa* Mziwoxolo Sirayi, Modimowabarwa Kanyane, Giulio Verdini, 2021-06-14 This book captures ground breaking attempts to utilise culture in territorial development and regeneration processes in the context of

South Africa and our new normal brought by COVID 19 the fourth industrial revolution and climate change the world over The importance of culture in rural urban revitalisation has been underestimated in South Africa and the African continent at large Despite some cultural initiatives that are still at developmental stages in big cities such as Johannesburg eThekweni and Cape Town there is concern about the absence of sustainable policies and plans to support culture creativity and indigenous knowledge at national and municipal levels Showcasing alternative strategies for making culture central to development this book discusses opportunities to shift culture and indigenous knowledge from the peripheries and place them at the epicentre of sustainable development and the mainstream of cultural planning which can then be applied in the contexts of Africa and the Global South Governmental institutions research councils civil society organisations private sector and higher education institutions come together in a joint effort to explain the nexus between culture economic development rural urban linkages grassroots and technological innovations Culture and Rural Urban Revitalization in South Africa is an ideal read for those interested in rural and urban planning cultural policy indigenous knowledge and smart rural village model

Bridging the Academia Industry Divide Wilson R. Nyemba, Charles Mbohwa, Keith F. Carter, 2021-05-12 This book is the result of years of research following a realization of the mismatch of engineering skills produced by universities and those that industry required based on the situation in Sub Saharan Africa equally applicable to other regions in Africa and indeed worldwide The book is meant to assist engineering academics and engineers in industry to build capacity and cope with the dynamic trends in technology brought on by the 4th Industrial Revolution and to prepare for the 5th Industrial Revolution an era predicted to be dominated by critical and system thinkers with creative and innovative skills as basic necessities The book is also useful for policy making researchers in academia industrial and public sector researchers and implementers in governments that provide required funding for the development of human resources and skills The book primarily consists of the novel research and innovation approaches of modelling and building systems thinking sub models which were ultimately integrated into the Universal Systems Thinking UST model aimed at improving the quality of engineers and engineering practice The initiatives in this book include strategies for bridging the gap between industry and academia through systems thinking research The book provides information on how to model simulate adjust and implement integrated systems thinking approaches to engineering education and training for capacity building and sustainability The book also covers approaches to address research gaps and mismatch of skills while capitalizing on the successes of several projects carried out and supported by the Royal Academy of Engineering over the years
