*Regime and Education in Zimbabwe* Bekithemba Dube, Albert Mufanechiya, 2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy Federal Register, 2014 **New Media and the Mediatization of Religion** Gabriel Faimau, William O. **African Initiated Christianity and the Decolonisation of Development** Philipp Öhlmann, Wilhelm Gräb, Marie-Luise Frost, 2020-01-07 This book investigates the substantial and growing contribution which African Independent and Pentecostal Churches are making to sustainable development in all its manifold forms. Moreover, this volume seeks to elucidate how these churches reshape the very notion of sustainable development and contribute to the decolonisation of development. Fostering both overarching and comparative perspectives, the book includes chapters on West Africa (Nigeria, Ghana and Burkina Faso) and Southern Africa (Zimbabwe and South Africa). It aims to open up a subfield focused on African Initiated Christianity within the religion and development discourse, substantially broadening the scope of the existing literature. Written predominantly by scholars from the African continent, the chapters in this volume illuminate potentials and perspectives of African Initiated Christianity, combining theoretical contributions, essays by renowned church leaders and case studies focusing on particular churches or regional contexts. While the contributions in this book focus on the African continent, the notion of development underlying the concept of the volume is deliberately wide and multidimensional, covering economic, social, ecological, political and cultural dimensions. Therefore, the book will be useful for the community of scholars interested in religion and development, as well as researchers within African studies, anthropology, development studies, political science, religious studies, sociology of religion and theology. It will also be a key resource for development policymakers and practitioners.

**SADC Gender Protocol 2014 Barometer** Morna, Colleen Lowe, Dube, Sifiso, 2014-10-25 In August 2008, Heads of State of the Southern African Development Community adopted the ground-breaking SADC Protocol on Gender and Development. This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance. By the 2013 Heads of State summit, 13 countries had signed and 12 countries had ratified the SADC Gender Protocol. The Protocol is now in force. With one year to go, time is ticking to 2015 when governments need to have achieved 28 targets for the attainment of gender equality. In keeping with the Alliance slogan 'Yes we must', this 2014 Barometer provides a wealth of updated data against which progress will be measured by all those who cherish democracy in the region. The world and SADC is also looking to the future with the post-2015 agenda. Now is the time to strengthen, resolve, reconsider, reposition and re-strategise for 2030.

**Towards Democratic Development States in Southern Africa** Godfrey Kanyenze, Herbert Jauch, 2016-12-14 The dawn of the twenty-first century heralded an apparent change of fortunes for most sub-Saharan African economies with annual growth averaging over 5% for fifteen years. However, this was not accompanied by structural transformation; poverty, food insecurity, unemployment and inequality persist. Structural transformation has not been and indeed cannot be delivered by market forces and neo-liberal economic policies; it requires a state committed to development and to achieving it in a democratic way. To what extent do the countries of Southern Africa exhibit the characteristics of such a developmental state? What steps, if any, do they need to take in order to become one? The book answers the questions with

respect to South Africa Botswana Namibia Zimbabwe Angola and Malawi Godfrey Kanyenze and his colleagues have assembled a distinguished team of writers to take the temperature of the regional political economy and chart a path for its future development

**Military Assistance on Request and the Use of Force** Erika De Wet, 2020-03-26 In countries such as Syria Iraq South Sudan and Yemen internationally recognized governments embroiled in protracted armed conflicts and with very little control over their territory have requested direct military assistance from other states These requests are often accepted by the other states despite the circumvention of the United Nations Security Council and extensive violation of international humanitarian law and human rights In this book Erika De Wet examines the authority entitled to extend a request for or consent to direct military assistance as well as the type of situations during which such assistance may be requested notably whether it may be requested during a civil war Ultimately De Wet addresses the question of if and to what extent the proliferation of military assistance on the request of a recognized government is changing the rules in international law applying to the use of force
