administrative sciences have been dominated by a turn to managerial perspectives in the late 20th and early 21st centuries and in the spirit of this turn New Public Management or NPM promises to produce efficient responsible and client oriented public services The reforms carried out in the pursuit of New Public Management are often accompanied by great optimism and rapid enthusiastic steps toward implementation Even in highly developed industrial countries however these fundamental reforms often overlook the political and cultural contexts of the implementing country New Public Management in Africa Emerging Issues and Lessons provides much needed theoretical foundations for NPM reforms in the African context and reflects on the success of existing reforms in the development of several African states The individual contributions in this timely volume provide important analyses of academic discourse practical policy achievements and desiderata The book as a whole however provides a valuable impetus for public administration research in and on African states sharing findings on the results of reforms to date and adjustments required for these reforms to succeed For public administration

Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons, 2013 Grid-locked African Economic Sovereignty Warikandwa, Tapiwa Victor, Nhemachena, Artwell, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions New Armies from Old Roy Licklider, 2014-04-15 Negotiating a peaceful end to civil wars which often includes an attempt to bring together former rival military or insurgent factions into a new national army has been a frequent goal of conflict resolution practitioners since the Cold War In practice however very little is known about what works and what doesn't work in bringing together former opponents to build a lasting peace Contributors to this volume assess why some civil wars result in successful military integration while others dissolve into further strife factionalism and even renewed civil war Eleven cases are studied in detail Sudan Zimbabwe Lebanon Rwanda the Philippines South Africa Mozambique Bosnia Herzegovina Sierra Leone Democratic Republic of the Congo and Burundi while other chapters compare military integration with corporate mergers and discuss some of the hidden costs and risks of merging military forces New Armies from Old fills a serious gap in our understanding of civil wars their possible resolution and how to promote lasting peace and will be of interest to scholars and students of conflict resolution international affairs and peace and security studies **Public Budgeting in African Nations** Peter

Fuseini Haruna, Shikha Vyas-Doorgapersad, 2016-04-14 *Public Budgeting in African Nations* aims to provide usable budgeting and fiscal policy management information to development practitioners interested in improving the performance of governments in the context of good governance. It shares regional and cross cultural experiences with international audiences and gives reflective attention to comparative budgeting and fiscal policy management. With a promising economic and fiscal forecast, such information is timely for international development practitioners and for scholars and researchers interested in advancing development management. This book adopts an interdisciplinary pragmatic approach to analyze and present research findings on public budgeting as a sustainable development tool. The central argument is that development practice will benefit from a bottom up decentralized approach to budgeting and fiscal policy management involving national, sub-national and civil society institutions. From this perspective, a balanced budget should draw from and reflect values and priorities across the full spectrum of social and political life. *Political Handbook of the World 2018-2019* Tom

Leading from Behind Maia Chenaux-Repond, 2017-07-19 Drawing on communications rescued from the shredders in the last days of Rhodesia, enlivened by photographs and memories both her own and those of her colleagues, Maia Chenaux-Repond tells the story of her work as the Provincial Community Development Officer, Women for Mashonaland and South in the Ministry of Internal Affairs in the 1970s. There are no records whatsoever in the National Archives of Zimbabwe about the Community Development Section, Women, even though it was active in all the provinces. In the absence of other documentary sources and all other provincial officers long having emigrated or died, this account of her work fills a significant gap in the pre-independence history of Zimbabwe. The crucial focus of the Women's Section on improving the lives and skills of women in the rural areas became progressively more difficult when the civil war intensified from the early 1970s as rural people and the development workers themselves were moved into Protected Villages and as the Ministry became increasingly militarized.

Sons of the Soil Dr. Ross Gordon Cooper,2019-09-15 When the Dutch and the British settled in the Rhodesia s they found a country with weather and climate like no other The rich soil and abundant rainfall was very favourable Topography varied from the Lowveld with grass and semi scrub land suitable for cattle farming to the Midlands and Highveld suitable for cultivation of crops and smaller livestock The mountainous areas of Melssetter Chimanimani and Vumba provided ideal areas for the cultivation of coffee and tea Agriculture became the backbone of the economy The abundance of harvest and meat made Rhodesia completely self sufficient and the industrial manufacturing sector rapidly expanded and boomed During the war 1964 1980 Agricultural output did not slump In spite of the reassurances for the white farmers after independence their prominence was doomed from the year 2000 when they were attacked killed and their land grabbed The economy has not recovered from that onslaught To fight for what is right has been a long battle and many have tired

Leading under Duress Jean-Pierre Bongila,2024-11-15 This comparative study

of teacher attrition in the Global South and OECD countries examines the exceptionality of twenty selected learning leaders in the D R Congo Ghana and Uganda who have stayed in the teaching profession and led their student learning with devotion and integrity Like any learning leader exceptional teachers live the challenges and pressures that have caused some of their peers to leave the profession The extraordinary learning leaders from elementary secondary and higher education have stood victorious amid education devaluations and professional tensions The author gives voice to those exceptional teachers and analyzes the ethical rationale behind their unfailing commitment to their teaching vocation Their teaching philosophies and personal accounts revealed altruistic impulses This book further explores the exceptional teachers narratives and their selfless actions through the lens of philanthropic and leadership ethics theories Although the exceptional teachers altruism appears self sacrificing it embodies some form of self benefit because one can hardly fathom altruism for altruism s sake Nevertheless the twenty exceptional teachers acted in a self sacrificing manner The author appeals to the Global South countries to implement education policies that should redecorate the profession of learning leadership

The Development in International Law of Articles 23 and 24 of the Universal Declaration of Human Rights: The Labor Rights Articles Lee Sweptston, 2014-07-07

The human rights enunciated in Articles 23 and 24 of the UDHR concern aspects of rights related to work This part of international human rights law is often neglected in human rights textbooks and teaching and indeed is often omitted from the work done by national human rights institutes and by NGOs concerned with human rights as though it were a separate discipline that did not fall properly into the human rights field This volume addresses this commonly held but erroneous misconception There are aspects of labor related rights in all the major human rights instruments and systems While the International Labor Organization ILO is the primary body in this field labor related rights are also dealt with by the United Nations the major regional organizations such as the OAS and the EU and the development banks the World Bank and its regional counterparts There are also provisions on labor rights in all the major international instruments or they have been read to cover labor related questions This volume which reviews the development and implementation of Articles 23 and 24 of the UDHR will spend most attention on the ILO which is the premiere organization in this field both chronologically and substantively However since a thorough and complete picture of human rights cannot be drawn without considering labor related rights as an aspect of the broader human rights canon the rest of the international system will also be brought in This book is the fifth volume in The Universal Declaration of Human Rights Series The Series will consist of approximately 20 volumes each dealing with a substantive right or group of rights set forth in the Universal Declaration of Human Rights UDHR Each volume is authored by an expert in human rights generally and in the particular subject addressed Without losing sight of the political context in which the implementation of human rights must occur each book provides a comprehensive legally oriented analysis of the rights concerned including an examination of the legislative history of the text of each right as adopted in 1948 the right s subsequent articulation and interpretation by international bodies and in

subsequent international instruments and a survey of state practice in defining and enforcing the right
