Farmers' Crop Varieties and Farmers' Rights Michael Halewood, 2016-03-21 Over the last 50 years there has been a growing appreciation of the important role that farmers play in the development and conservation of crop genetic diversity and the contribution of that diversity to agro ecosystem resilience and food security This book examines policies that aim to increase the share of benefits that farmers receive when others use the crop varieties that they have developed and managed i e farmers varieties In so doing the book addresses two fundamental questions The first question is how do farmer management practices along with other factors such as environment and the breeding systems of plants affect the evolution and maintenance of discrete farmers varieties The second question is how can policies that depend on being able to identify discrete plant varieties accommodate the agricultural realities associated with the generation use and maintenance of farmers varieties This focus on discreteness is topical because there are no fixed internationally recognized taxonomic or legal definitions of farmers varieties And that presents a challenge when developing policies that involve making specific discrete farmers varieties the subject of legal rights or privileges The book includes contributions from a wide range of experts including agronomists anthropologists geneticists biologists plant breeders lawyers development practitioners activists and farmers It includes case studies from Asia Africa Latin America and Europe where in response to a diversity of contributing factors there have been efforts to develop policies that provide incentives or rewards to farmers as stewards of farmers varieties in ways that are sensitive to the cultural taxonomic and legal complexities involved The book situates these initiatives in the context of the evolving discourse and definition of farmers rights presenting insights for future policy initiatives

Freedom of Speech in International Law Amal Clooney, David Neuberger, 2024 Freedom of Speech in International Law charts the minimum protections for speech enshrined in international human rights law It not only addresses the problems facing free speech today but offers recommendations to give effect to the international law obligation to protect freedom of expression

Ambivalent Patricia Hayes, Gary Minkley, 2019-11-12 Going beyond photography as an isolated medium to engage larger questions and interlocking forms of expression and historical analysis Ambivalent gathers a

new generation of scholars based on the continent to offer an expansive frame for thinking about questions of photography and visibility in Africa The volume presents African relationships with photography and with visibility more generally in ways that engage and disrupt the easy categories and genres that have characterized the field to date Contributors pose new questions concerning the instability of the identity photograph in South Africa ethnographic photographs as potential history humanitarian discourse from the perspective of photographic survivors of atrocity photojournalism the nuanced passage from studio to screen in postcolonial digital portraiture and the burgeoning visual activism in West Africa As the contributors show photography is itself a historical subject it involves arrangement financing posture positioning and other kinds of work that are otherwise invisible By moving us outside the frame of the photograph itself by refusing to accept the photograph as the last word this book makes photography an engaging and important subject of historical investigation Ambivalent s contributors bring photography into conversation with orality travel writing ritual psychoanalysis and politics with new approaches to questions of race time and postcolonial and decolonial histories Contributors George Emeka Agbo Isabelle de Rezende Jung Ran Forte Ingrid Masondo Phindi Mnyaka Okechukwu Nwafor Vilho Shigwedha Napandulwe Shiweda Drew Thompson

Seed system of Pakistan: Policy challenges and prospects Rana, Abdul Wajid, Gill, Sitara, Akram, Iqra, 2022-09-26 The seed industry in Pakistan has undergone significant developments since the 1950s and has transitioned from Green Revolution to Gene Revolution The 2015 amendment in the Seed Act 1976 and the enactment of Plant Breeders Rights Act and Rules have provided long awaited intellectual property protection for proprietary seed Notwithstanding this fundamental change the challenge of effective enforcement of intellectual property rights remains This paper presents how the seed industry has evolved over the years through evaluating the regulatory and institutional framework along with looking into the major challenges that still plague the seed system of Pakistan It also explores how the private sector can be incentivized to invest in the seed sector while protecting the farmers rights Findings reveal that there seems to be a lot of scope for strengthening the seed system of Pakistan via encouraging private sector participation mainly through developing proactive markets with strong institutional mechanism along with scientific and time bound regulatory approval framework An appraisal of the international best practices divulges that technological backstopping developing public private partnerships building institutional capacity for effective enforcement of regulatory regime and availability of information to farmers for selecting quality seed are equally vital for creating a well functioning seed system in Pakistan

Overlapping Individual and Interstate Claims in International Law Jessica Howley, 2024-08-07 Mechanisms for individuals to bring claims under international law have become increasingly common in recent decades particularly in human rights and investment law Nonetheless when the International Law Commission codified the law of State responsibility it largely ignored the bringing of international claims by individuals and the relationship between such claims and those brought on the interstate level Overlapping Individual and Interstate Claims in International Law is the first dedicated monograph examining this

relationship one that is of mounting importance on both a practical and theoretical level This work provides a comprehensive survey of the potential for overlapping individual and interstate claims to arise It underlines issues of fairness consistency and interference with autonomy that can result when multiple claimants vie to have their claims determined before different forums The author analyses in detail how treaty provisions and various rules and principles of international law can be expected to regulate such overlapping claims considering among others the local remedies rule the rule precluding double recovery *res judicata* waiver and certain circumstances precluding wrongfulness The book clarifies the nature of international claims including in the theoretically muddled field of diplomatic protection and highlights undertheorized foundations of topical debates concerning the use of countermeasures and self defence outside of the interstate arena It concludes with a human rights oriented proposal for resolving the complex policy issues to which these overlapping claims give rise

Govern Like Us M. A. Thomas, 2015-05-05 In the poorest countries such as Afghanistan Haiti and Mali the United States has struggled to work with governments whose corruption and lack of capacity are increasingly seen to be the cause of instability and poverty The development and security communities call for good governance to improve the rule of law democratic accountability and the delivery of public goods and services The United States and other rich liberal democracies insist that this is the only legitimate model of governance Yet poor governments cannot afford to govern according to these ideals and instead are compelled to rely more heavily on older cheaper strategies of holding power such as patronage and repression The unwillingness to admit that poor governments do and must govern differently has cost the United States and others inestimable blood and coin Informed by years of fieldwork and drawing on practitioner work and academic scholarship in politics economics law and history this book explains the origins of poor governments in the formation of the modern state system and describes the way they govern It argues that surprisingly the effort to stigmatize and criminalize the governance of the poor is both fruitless and destabilizing The United States must pursue a more effective foreign policy to engage poor governments and acknowledge how they govern

Biological Hazards in Food Maria Schirone, Pierina Visciano, Rosanna Tofalo, Giovanna Suzzi, 2017-03-07 The ingestion of food containing pathogenic microorganisms i e bacteria and their toxins fungi viruses and parasites can cause food borne diseases in humans A growing number of emerging pathogens changes of virulence of known pathogens and appearance of antibiotic resistance has recently exposed consumers to a major risk of illness Also infected people and the environment can spread microorganisms on raw or processed food Outbreaks of food borne diseases are often unrecognized unreported or not investigated and particularly in developing countries their agents and sources are mostly unknown Surveillance and analytical methods aiming at their detection are to be hoped as well as good strategies to struggle against these threats This E book is subdivided in chapters regarding to pathogenic and spoiling microorganisms chemical hazards produced by biological agents and food safety management systems
