David Moore,Norma Kriger,Brian Raftopoulos,2013-09-13 Zimbabwe s severe crisis and a possible way out of it with a transitional government and the new era for which it prepares the ground demands a coherent scholarly response Progress can be employed as an organising theme across many disciplinary approaches to Zimbabwe s societal devastation At wider levels too the concept of progress is fitting It underpins modern liberal and radical perspectives of development pervading the social sciences and humanities Yet perceptions of progress are subject increasingly to intensive critical inquiry Their gruesome end is signified in the political projects of Robert Mugabe and ZANU PF John Gray s Black Mass Apocalyptic Religion and the Death of Utopia indicates this It is expected that participants will engage directly in debates about how the idea of progress has informed their disciplines from political science and history to labour and agrarian studies and then relate these arguments to the Zimbabwean case in general and their research in particular This book was published as a special issue of the Journal of Contemporary African Studies *Labour and Economic Change in Southern Africa c.1900-2000* Rory Pilosof,Andrew Cohen,2021-06-03 This book explores the social and economic development of Zimbabwe Zambia and Malawi over the course of the twentieth century These three countries have long shared and interconnected pasts All three were drawn into the British Empire at a similar time and the formation of the ill fated Federation of Rhodesia and Nyasaland formally linked these countries together for a decade in the mid twentieth century This formal political relationship created dynamics that resulted in yet closer economic and social links After Federation the economic realities of industry transport and labour supplies meant that these three countries continued to be intricately interconnected Yet despite these connected pasts comparative work on the economic histories of Malawi Zambia and Zimbabwe and how these change over time is rare This book addresses the gap by providing the first comprehensive collection of labour and census data across the twentieth century for these three countries The different economic models and performances of these states offer good comparison allowing researchers to look at different models of development and how these played out over the long term The book provides data on population growth and change industrial and occupational structure and the various shifts in what the economically active population did It will be useful for historians economists development studies scholars and non governmental organisations working on twentieth century and contemporary southern Africa **Zimbabwe's International Relations** Julia Gallagher,2017-06-29 Zimbabwe is a state that has undergone significant ruptures in its domestic and international politics in recent years This book explores how Zimbabwean citizens have under difficult circumstances reconstructed ideas of their state by imagining the wider world Unlike other work on international relations which tends to focus on the state level this book is based on the accounts of

**Uncovering African Agency** Lucy Corkin, 2016-02-17 China's engagement in Africa is generally portrayed simply as African countries being exploited for their mineral wealth by a wealthy political and economic superpower Is this always the case Certain African countries have been able to use China's involvement in the region to grow their economies and solicit renewed interest from previously disengaged foreign powers by using their relationship with China to bolster their political capital In this thought provoking and original work Lucy Corkin demonstrates how Angola has been amongst the most successful of African nations in this role The concept of African agency covers a wide range of different countries with very different capabilities and experiences of engaging with China In each individual country there are a myriad of actors all with increasingly discernible agencies Uncovering African Agency Angola's Management of China's Credit Lines casts a fascinating new light on China's involvement with her largest African trading partner and through this shows how different African states and the governmental actors within them are able to exploit the relationship to their best advantage

**Urban Informality in South Africa and Zimbabwe** Innocent Moyo, Trynos Gumbo, 2021-01-09 This book adds to the research of urban informality in the Global South with a specific focus on South Africa and Zimbabwe It addresses the agency and the potential transformative capacity of the phenomenon of urban informality in connection with Southern African cities and towns It adopts a political economy approach to analyse the evolution of informality in cities and its implications for urban planning It brings to bear how the South African and Zimbabwean historical and/or ideological and contemporary political and economic trajectories have impacted on the ever-changing nature of urban informality both spatially and structurally and/or compositionally thus resulting in unique urban materialities which are aspects that have scarcely been studied or discussed in the extant literature This book therefore seeks to close the academic gap by dealing with the dearth of literature on spatial re-locational discourses of urban informality The work positions urban informality as a resilient force with potency in terms of political mobilisation and re-shaping urban spaces Though these are fundamental issues they have received comparatively little attention especially in literature that focuses on the Southern African region Accordingly undergraduate and post graduate students as well as academics in the fields of Urban Geography Political Science Development Studies Sociology Town and Regional Planning among others will find the range of topics and depth of coverage in this book particularly valuable Similarly practitioners and

activists on issues of urban informality and urban governance will find the book very useful **Minerals Yearbook**, 2013

The Sustainability Ethic in the Management of the Physical, Infrastructural and Natural Resources of Zimbabwe Chirisa, Innocent, 2019-05-27 Humanity has extensively exploited natural and physical resources since the Industrial Revolution in Europe A geological era now called the Anthropocene has been coined in environmental and developmental circles to mark the increased domination of humanity on Earth and its resources Today the ecological footprint on the fragile planet continues to increase Mass industrialisation like what China is doing and pushing for is one of the drivers for increased urbanisation that results in increased demand for land It is also the stimulus behind increased deforestation overfishing and pollution As the fragility of the Earth increases global bodies like the Intergovernmental Panel on Climate Change are pushing to reduce the Earth's temperature Human efforts to manage the problem cascade from a global to a regional to a national as well as to much localised scales Missing though are nuanced contributions at national and community levels which this book is an attempt to bridge The nagging sense of responsibility is what this book explores under the label of sustainability ethic As a case study the book examines the use of sustainability ethic in the management of the physical infrastructural and natural resources of Zimbabwe This ethic is built on pillars that include participation of people households in their pursuit for sustainable livelihoods appropriate technology tools and techniques for environmental protection It also hinges on stewardship and structures institutions policies and processes of governance and sustainability There are also the aspects of ethics laws and indigenous technical knowledge for sustainability capacity building and education plans and programmes for sustainability and population and demographic determinants processes and outcomes for sustainability The book is a timely contribution to an urgent global concern and climate change debate *The Art of Survival* Joseph Chikowero, Anna Chitando, Angeline M. Madongonda, Government Phiri, 2015-11-25 The Art of Survival Depictions of Zimbabwe and the Zimbabwean in Crisis offers a fresh interdisciplinary examination of a period against which development in Zimbabwe is often measured one epitomized by the severe shortages and runaway inflation of 2008 While journalistic stories of the 1998 2008 era often privilege the reductive stories of woe defeat and crushed hopes this volume explores how survival was still possible in those circumstances The book offers insights into how ordinary Zimbabweans battled the odds by making startling innovations in language use to legitimize new survival strategies how they weaved new songs and reinterpreted old ones to fight for survival how social institutions such as churches reinterpreted popular gospel and how authors playwrights and dramatists crafted works that acknowledge the unprecedented difficulties and yet find humour laughter and love in unusual places This work will appeal to both scholars who will appreciate the depth of the analysis and the general reader The State of Food Insecurity in Harare, Zimbabwe Tawodzera, Godfrey, Zanamwe, Lazarus, 2016-10-17 Harare is at the epicentre of the economic meltdown and political crisis that has devastated Zimbabwe over the last decade and led to a mass exodus from the country Those who remained in Zimbabwe's largest city and capital

endured unprecedented hardship as the formal economy collapsed unemployment soared and poverty deepened Household surveys conducted in Harare with official sanction between 2003 and 2009 appear to demonstrate that food insecurity was not a particularly serious problem a conclusion sharply at odds with reality In 2008 at the height of the crisis AFSUN therefore implemented its own baseline food security survey in Harare using a well tested and reliable methodology This paper presents and discusses the results of that survey and shows that Harare had become the most food insecure city in the SADC region by 2008 Levels of food insecurity were extraordinarily high as poor households struggled to find the income to purchase what little food was available in the shops and informal markets The paper demonstrates that participation in the informal food economy was the major response to the crisis providing poor households with a modicum of food and income Urban agriculture for home consumption also grew in importance as a crisis response While the political and economic situation in Zimbabwe has stabilised somewhat since 2008 the long term impact of many years of enforced food insecurity on the city population is incalculable This paper concludes with the recommendation that ongoing monitoring of the urban food security situation in Harare is essential in order to begin to develop national and municipal policies that could ensure a food secure future for the city

*The Political Economy of the Kimberley Process* Nathan Munier, 2020-09-03 Investigating state responses to the Kimberley Process an ambitious international agreement meant to reduce the trade of conflict diamonds this study looks at the political economy of resource wealthy states in Africa to understand why some African states have higher levels of compliance and co operation than others

approach which combines political economy social policy financial inclusion and empowerment approaches the book also shows how engagement of youth and women digitalisation and the provision of support by public and private actors can jump start agriculture as the engine of African development and industrialisation Taken together with this conscious effort to promote a multi disciplinary discussion the book is valuable reading for students policymakers and activists interested in emerging new directions in African development thinking and research

effects of these changes based on fieldwork in three Southern African countries Zimbabwe Namibia and Botswana Examining three recent court cases involving international law international courts and transnational NGOs it looks beyond some of international relations established models to explain when and why and legal rights can be clarified This text will be of key interest to scholars and students of African politics and human rights and more broadly to international relations and international law and justice

*Christian Theological Education and the Response to the Crisis in Zimbabwe* Bekithemba Dube, Gift Masengwe, 2025-10-02 The book offers an incisive examination of the governing philosophy of the Zimbabwe African National Union Patriotic Front ZANU PF referred to as Zanupfism characterizing it as marked by callousness and malevolence towards dissenting voices from civil society and opposition factions This pernicious application of power extends beyond mere verbal aggression to encompass militaristic actions engendering a profound generational crisis within Zimbabwe The contributors explore the compelling juxtaposition between President Emmerson Mnangagwa and the biblical Nebuchadnezzar II a ruler notorious for his autocratic reign and expansive ambitions Further critically scrutinizing the complicity of neo Pentecostal prophets in the book reveals how these religious figures promote an esoteric understanding of the divine diverging from a theology rooted in justice thereby enabling the oppressive regime's practices This critique underscores the imperative for prophets to recalibrate their theological perspectives urging them to move beyond magical interpretations of faith toward an authentic engagement with a personal God who champions justice The book further encompasses the complex interplay of political and religious narratives examining how church leaders either bolster or undermine Mnangagwa's political ideology highlighting the tendency among certain religious factions to deify political authority ultimately exacerbating societal inequities In advocating for a transformative theological discourse in Zimbabwe the book asserts that religious narratives must serve as instruments for fostering democracy social justice and equity rather than sustaining a status quo that entrenches authoritarian governance The necessity for unified principled resistance grounded in the collective agency of the populace emerges as a salient theme in the quest for meaningful political and social reform
