Inequality and Political Cleavage in Africa Catherine Boone,2024-04-25 Extensive data maps and case histories show how competition between rich and poor regions drives African politics not ethnic diversity *New Urban Agenda in Zimbabwe* Charles Chavunduka,Innocent Chirisa,2024-06-23 This book presents ways of shaping the built environment sciences and practices for steering the New Urban Agenda in Zimbabwe Attention to the built environment disciplines and practice is important because of their centrality to economic dynamism and sustainability of urban services The reverse relationship is also true because through provision of norms aspirations and guidelines the New Urban Agenda helps in steering the built environment disciplines and practice The book begins by exploring theoretical and conceptual material on the built environment concept It recognizes that sub Saharan African countries and Zimbabwe in particular are operating in a changing environment of rapid urbanization unemployment and inequality Its premise is that the built environment sciences and practice can make a contribution to addressing sustainable development challenges through the introduction of innovations in infrastructure institutions and processes that enhance socio economic growth and development The book brings together scholarship from various disciplines in the built environment and presents sector initiatives such as those relating to curricula smart technologies and cutting edge innovations in steering sustainable urban development *Integral Green Zimbabwe* Elizabeth Mamukwa,Ronnie Lessem,Alexander Schieffer,2016-05-23 *Integral Green Zimbabwe* An African Phoenix Rising by Ronnie Lessem Alexander Schieffer and Liz Mamukwa is the first book in the Integral Green Society and Economy series a series which has three overarching aims The first aim is to link together two major movements of our time one philosophical the other practical The philosophical movement is towards what many today are calling an integral age while the practical is the green movement duly aligned with that of sustainable development The second is to blend together elements of nature and community culture and spirituality science and technology politics and economics thus serving to bring about an integral green vision albeit with a focus on business and economics As such the authors transcend the limitations to sustainable development and environmental economics which are overly ecological if not also technological in orientation and exclude social and cultural elements Thirdly this particular volume focuses specifically on Zimbabwe as well as Southern Africa drawing on the particular issues and capacities that this country and region represents The emphasis on Zimbabwe and Southern Africa transpired not only because two of the editors Lessem and Mamukwa are Zimbabwean in origin but because Zimbabwe is today like a phoenix rising from the ashes and has the opportunity to recreate itself anew

New Millennium Woes and Livelihood Struggles in Africa Peter Thomas,Ngonidzashe Marongwe,2021-05-19 One of the oldest survival pursuits undertaken by the weak and the downtrodden people across the world has been begging Going back to the ancient Christian biblical times up to the present epoch as well as across varying spatial settings in situations of trouble and tribulations parts of various communities have resorted to beggary to either overcome immediate adversities or longer term calamities Drawing on insights from two polar theoretical lenses of Social Constructionism and Social Deconstructionism and guided by a pithy study of the begging across the African continent especially by Zimbabweans this book troubles the various contours related to the subject of begging Inter alia the book considers the concept of begging the causes of the prevalence of begging across the world and particularly among Zimbabweans the challenges and benefits associated with the pursuit of alms the impact of begging in foreign lands as well as some of the strategies that beggars employ to maximize their collections and or profits What can be discerned from the book is that for many begging is one of the last resort undertakings with low pickings However from a utilitarian perspective begging has helped to sustain the impoverished livelihoods of Zimbabweans both inside and outside the borders of the country since the advent of a debilitating crisis experienced from the turn of the new millennium On the whole this book seeks to provoke further researches on an important socio economic area that affects many African communities but has so far been scantily researched The book is handy for students and practitioners in economic history African studies economics risk and disaster management social anthropology political science and development studies

In Pursuit of an African Green Revolution Keijiro Otsuka,Donald F. Larson,2015-11-24 This book explores recent experiences in the effort to bring about a Green Revolution in Sub Saharan Africa SSA The chapters focus on rice and maize

which are promising and strategic smallholder crops. Significantly, we find that an African Rice Revolution has already begun in many irrigated areas using Asian type modern varieties, chemical fertilizer, and improved management practices. Further, we find that the same technological package significantly increases the productivity and profitability of rice farming in rainfed areas as well. We also find evidence that management training, when done well, can boost productivity on smallholder farms. This suggests that African governments can accelerate the pace of Africa's Rice Revolution by strengthening extension capacity. The story for maize is wholly different: where most farmers use local varieties, apply little chemical fertilizer, and obtain very low yields. However, in the highly populated highlands of Kenya, a number of farmers have adopted high yielding hybrid maize varieties and chemical fertilizer, as was the case in the Asian Green Revolution, apply manure produced by stall fed cows, as was the case during the British Agricultural Revolution, and keep improved cows or cross breeds from European cows and local stock, as was the case of the Indian White Revolution. We conclude that while rice in Africa has benefited from an Asian Green Revolution strategy that emphasizes modern seeds, inputs, and focused knowledge transfers, the success of Africa's Maize Revolution will require a different system approach based on hybrid maize, chemical and organic fertilizers, and stall fed cross bred cows. **Plantation Life** Tania Murray Li, Pujo Semedi, 2021-09-27

In **Plantation Life**, Tania Murray Li and Pujo Semedi examine the structure and governance of Indonesia's contemporary oil palm plantations, which supply 50 percent of the world's palm oil. They attend to the exploitative nature of plantation life, wherein villagers' well-being is sacrificed in the name of economic development. While plantations are often plagued by ruined ecologies, injury among workers, and a devastating loss of livelihoods for former landholders, small scale independent farmers produce palm oil more efficiently and with far less damage to life and land. Li and Semedi theorize corporate occupation to underscore how massive forms of capitalist production and control over the palm oil industry replicate colonial style relations that undermine citizenship. In so doing, they question the assumption that corporations are necessary for rural development, contending that the dominance of plantations stems from a political system that privileges corporations. **International Handbook for Policy Research on School-Based Counseling** John C. Carey, Belinda Harris, Sang Min Lee, Oyaziwo Aluede, 2017-10-04. By addressing gaps in policy knowledge and counselor training, the Handbook discusses both the diversity of prominent issues and the universality of its major objectives. Topics featured in this handbook include: The use of scoping reviews to document and synthesize current practices in school based counseling.

Contemporary public policy on school based counseling in Latin America Policy capacity building and school based counseling in Eastern Southern Africa Public policy policy research and school counseling in Middle Eastern countries Policy and policy research on school based counseling in the United Kingdom Policy research on school based counseling in the United States The International Handbook for Policy Research in School Based Counseling is a must have resource for researchers graduate students clinicians and related professionals and practitioners in child and school psychology educational policy and politics social work psychotherapy and counseling as well as related disciplines Reimagining God and Resacralisation Alexa Blonner,2019-05-14 This book shows that widespread resacralisation has been taking place which is producing new ways of perceiving God and the divine The last century has seen unmistakable changes in religious practices and the concept of spirituality right across the world There was a broad expectation for much of the twentieth century that religious worldviews would eventually succumb to the challenge of secularist materialism but this process of secularisation has yet to occur as predicted The book begins by contrasting theories of secularisation and resacralisation Throughout the book conceptual threads or new religious themes related to this resacralisation are discussed in terms of three main categories reimagining God s nature substance and location reimagining human value and purpose and reimagining modes of redemption Finally the book considers how these threads are moving in various different directions and what the religious future might hold This is a bold examination of contemporary spirituality that will appeal to academics and scholars of religious studies new religious movements and the sociology of religion Yearbook of International Organizations 2013-2014 (Volumes 1a-1b) Union Of International Associations,Union of International Associations,2013-06-21 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *The impact of agricultural extension services in the context of a heavily subsidized input system* Ragasa, Catherine,Mazunda, John,Kadzamira, Mariam,2016-01-08 This paper aims to test this hypothesis and to contribute to better understanding of strategies to revitalize the agricultural extension system in Malawi Specifically it examines the interplay between the fertilizer subsidy and access to extension services and their impact on farm productivity and food security in Malawi Results show that the fertilizer subsidy has inconsistent impact on farm productivity and food security at the same time access to agricultural advice was consistently insignificant in explaining farm productivity and food security Further analysis however shows that when access to extension services is unpacked to include indicators of usefulness and farmers satisfaction these indicators were statistically significant Households who reported that they received very useful agricultural advice had greater productivity and greater food security than those who reported receiving advice that they considered not useful This result implies the need to ensure the provision of relevant and useful agricultural advice to increase the likelihood of achieving agricultural development outcomes **Infrastructures for Peace in Sub-Saharan Africa** Mediel Hove,Geoff Harris,2019-06-14 Cultures of violence are characteristic of many countries in sub Saharan Africa

and attempts to move towards cultures of peace have often proved difficult and ineffectual And yet the wide variations in levels of violence within and between countries show that it is not inevitable rather it is the result of choices made at individual community and societal levels This book examines the potential of peace infrastructures as vehicles to strengthen and spread progress towards cultures of peace Peace infrastructures vary hugely in sophistication and level The examples examined in this book range from tiny structures which help resolve conflicts between individuals and within community organisations peace committees which serve local communities peace education and peace club programmes in schools mediation mechanisms to prevent election violence and to ministries of peace to coordinate government and non government efforts in peacemaking and peacebuilding The overall finding is that the development of peace infrastructures at all levels has great potential to build cultures of peace 1 It is the only book available which documents the experience and potential of nonviolence in post independence sub Saharan Africa 2 It makes a persuasive case for the development of various peace infrastructures in order to make peace sustainable 3 It explains how strategic planning can be utilised both to bring about change and to institutionalise it
