Zodiac Et Vos Relations:

Sapientia Astrologica: Astrology, Magic and Natural Knowledge, ca. 1250-1800 H Darrel Rutkin, 2019-04-24 This book explores the changing perspective of astrology from the Middle Ages to the Early Modern Era It introduces a framework for understanding both its former centrality and its later removal from legitimate knowledge and practice The discussion reconstructs the changing roles of astrology in Western science theology and culture from 1250 to 1500 The author considers both the how and the why He analyzes and integrates a broad range of sources This analysis shows that the history of astrology in particular the story of the protracted criticism and ultimate removal of astrology from the realm of legitimate knowledge and practice is crucial for fully understanding the transition from premodern Aristotelian Ptolemaic natural philosophy to modern Newtonian science This removal the author argues was neither obvious nor unproblematic Astrology was not some sort of magical nebulous hodge podge of beliefs Rather astrology emerged in the 13th century as a richly mathematical system that served to integrate astronomy and natural philosophy precisely the aim of the New Science of the 17th century As such it becomes a fundamentally important historical question to determine why this promising astrological synthesis was rejected in favor of a rather different mathematical natural philosophy and one with a very different causal structure than Aristotle's

Friendship in Medieval Iberia Antonella Liuzzo Scorpo, 2016-04-15 Private and public relationships frequently labelled as friendships have always played a crucial role in human societies Yet over the centuries ideas and meanings of friendship transformed adapting to the political and social climates of different periods Changing concepts and practices of friendship characterized the intellectual social political and cultural panorama of medieval Europe including that of thirteenth century Iberia Subject of conquests and Reconquest land of convivencia but also of political instability as well as of secular and religious international power struggles the articulation of friendship within its borders is a particularly fraught subject to study Drawing on some of the encyclopaedic vernacular masterpieces produced in the scriptorium of The Wise King Alfonso X of Castile 1252-84 this study explores the political religious and social networks interfaith and gender relationships legal definitions as well as bonds of tutorship and companionship which were frequently defined through the vocabulary and rhetoric of friendship This study demonstrates how the values and meanings of amicitia often associated with classical Roman

Visigothic and Eastern traditions were transformed to adapt to Alfonso X's cultural projects and political propaganda. This book contributes to the study of the history of emotions and cultural histories of the Middle Ages while also emphasizing how Iberia was a peripheral but still vital ring in a chain which linked it to the rest of Europe while also occupying a central role in the historical and cultural developments of the Western Mediterranean. The Pilgrim and the Book

Julia Bolton Holloway, 1992 Julia Bolton Holloway's *The Pilgrim and the Book: A Study of Dante, Langland and Chaucer* investigates major fourteenth century texts the Commedia, Piers Plowman and The Canterbury Tales in the light of the medieval theory and practice of pilgrimage especially concentrating on Emmaus and Exodus paradigms. Holloway's analysis draws extensively on iconography, musicology, typology and anthropology. The concluding chapter explains why each poet places himself within his poem in his own image as a pilgrim.

Historia de la Donzella Teodor

Isidro J. Rivera, Donna M. Rogers, 2000 This is the first English edition and critical study of the *Historia de la Donzella Teodor*, an anonymous thirteenth century text about the disputation of a learned young woman with a series of wise men. The text recounts the story of a young slave who is offered to the king in the hopes of saving her master from financial ruin. Intrigued by claims of her superior intelligence, the Caliph orders his court scholars to quiz the girl Teodor, who in each of the examinations demonstrates unparalleled skills and triumphs over the scholars. Based on the five extant manuscripts of the thirteenth century *Teodor*, the present edition will be of immediate interest to scholars and students of medieval Spanish literature and a valuable resource for those interested in Hispano-Arabic literary and cultural contact and due to the complete semi-paleographic transcriptions of all the witnesses to historical linguists. Since the critical material is in English it will reach an audience beyond the Iberian peninsula and further comparative research in medieval literary studies.
