Some online services provide ready-to-use online modules, such as that one for writing tests that I mentioned earlier. I do not know whether it contains material concerning assessment's validity and just what online learning is. (There are also examples of more advanced modules.) I do not include such modules, however, because they include no clear indicators of how to use them. So the one you are presented that you find the best is probably the one you are to implement. Even using such modules, the student is *learning* to use them. Good luck with your course!
