

Transfer Essay Workshop Tips

(Transfer Essay Checklist on the back)

Essay length: Minimum of three paragraphs; one-two pages.

Paragraph 1: State purpose of writing, which is applying for transfer to the specific institution's specific department and why. Summarize career goals, perhaps including a forecast of where you see yourself being in five or ten years. Summarize why you are a good fit for the institution and department—strong GPA, demonstrated work ethic and commitment to academic and professional growth, honorably completed military service, or special life experiences or accomplishments that have inspired your chosen career path.

Paragraph 2 (and other interior paragraphs as needed): Provide explanatory narrative detail in support of the specifics summarized in Paragraph 1. Focus on the positive, but be forthright if your overall GPA is relatively low. Briefly explain why, emphasizing that that was then, but here is where I am now. Many of us, including review committee members, were uncertain of their academic goals, or immature when they began college but overcame personal deficits and obstacles.

Final Paragraph: Restate the reason(s) why you want to transfer in a way that answers this question: "What makes you a good investment?" Conclude by thanking the unknown readers for their time and thoughtful consideration.

Pitfalls to Avoid: Students assume that their audience "bleeds maroon" or shares their enthusiasm for the institution. (While some review committees do want to know if the student is a "legacy," this should be mentioned once.) Generally, the audience does **not**, and is going to make a risk-assessment business decision.

Watch for your tone crossing the confidence line into cockiness. Proofread. Pay attention to the red, green, and blue squiggly lines in Word alerting you to problems. Read what you have written aloud to insure that there are no missing words or confused phrases. There can be no misspellings or serious mechanical defects. Have one of your peers read over your essay and provide you with feedback.

Scientific Information Transfer: The Editor's Role M. Balaban,2012-12-06 It was Faraday who in 1821 said that there are three necessary stages of useful research The first to begin it the second to end it and the third 1 to publish it There has since indeed been so much research and publication that we have become increasingly alarmed by the galloping proliferation of scientific information produced in relation to the user s ability to retrieve and consume it effectively conveniently and creatively In 1948 to deal with this concern the Royal Society Scientific Information Conference held in London spanned the whole realm of scientific information Sir Robert Robinson President of the Royal Society in his opening address noted that the study of scientific information services in all its ramifications has enormous scope and the London conference dealt with scientific publication format editorial policy subject grouping organization abstracting reviews classification indexing and training of information officers It was about this time that information science began to develop more on the retrieval end so it seems logical that the first editors group founded in 1949 was ICSU AB the International Council of Scientific Unions Abstracting Board In 1958 the National Academy of Sciences International Conference of 2 Scientific Information in Washington limited its interests and expanded on the later phases of the life cycle of information storage and retrieval
