Benson, Tamarah Kohanski, 2007-08-01 The Book of John Mandeville has tended to be neglected by modern teachers and scholars yet this intriguing and copious work has much to offer the student of medieval literature history and culture It was a contemporary bestseller providing readers with exotic information about locales from Constantinople to China and about the social and religious practices of peoples such as the Greeks Muslims and Brahmins The Book first appeared in the middle of the fourteenth century and by the next century could be found in an extraordinary range of European languages not only Latin French German English and Italian but also Czech Danish and Irish Its wide readership is also attested by the two hundred fifty to three hundred medieval manuscripts that still survive today Chaucer borrowed from it as did the Gawain poet in the Middle English Cleanness and its popularity continued long after the Middle Ages *The Book of Marvels and Travels* Sir John Mandeville, 2012-09-13 In his Book of Marvels and Travels Sir John Mandeville describes a journey from Europe to Jerusalem and on into Asia and the many wonderful and monstrous peoples and practices in the East A captivating blend of fact and fantasy Mandeville's Book is newly translated in an edition that brings us closer to Mandeville's worldview

The Journey from Texts to Translations Paul D. Wegner, 2004-08 Traces the history of the Bible from the earliest manuscripts to contemporary translations **The Seventh Age of Man** Muriel Cassel-Piccot, Geneviève Lheureux, 2019-01-23 The Seventh Age of Man Issues Challenges and Paradoxes is a collection of academic essays on Old Age The contributors come from a wide range of fields of expertise which accounts for the originality of the book Depending on their respective disciplines the authors resort to various methodological approaches from sociological case studies to discourse analysis and from historical and political theories to media criticism but they often address similar questions when are people to be considered as old what does it mean to be old how do we deal with ageing and reach similar conclusions about the paradoxical representations of the elderly whether in Renaissance Europe or in contemporary China Although men and women are sometimes treated differently in most societies the older generation is alternately perceived as a threat and a burden or as financial and moral support If they are often criticized or ridiculed especially when they try to retain their youthful looks long after their prime the elderly also trigger a feeling of nostalgia as representatives of a past usually seen as more desirable than the present Their resilience and independence are regularly emphasized as well as their wisdom as a result of their long experience which helps them to contemplate their ends more serenely and which might turn them into models for their contemporaries *The Encyclopedia of Contemporary American Fiction, 2 Volumes* Patrick O'Donnell, Stephen J. Samuel Beckett's Legacies in American Fiction James Baxter,2021-11-30 Samuel Beckett s Legacies in American Fiction provides an overdue investigation into Beckett s rich influences over American writing Through in depth readings of postmodern authors such as Robert Coover Donald Barthelme Thomas Pynchon Don DeLillo Paul Auster and Lydia Davis this book situates Beckett s post war writing of exhaustion and generation in relation to the emergence of an explosive American avant garde In turn this study provides a valuable insight into the practical realities of Beckett s dissemination in America following the author s long standing relationship with the countercultural magazine Evergreen Review and its dramatic role in redrawing the possibilities of American culture in the 1960s While Beckett would be largely removed from his American context this book follows his vigorous albeit sometimes awkward reception alongside the authors and institutions central to shaping his legacies in 20th and 21st century America Trade, Travel, and Exploration in the Middle Ages John Block Friedman,Kristen Mossler Figg,2013-07-04 Trade Travel and Exploration An Encyclopedia is a

Early English Text Society ,1973 Chinese Economic Statecraft from 1978 to 1989 Priscilla Roberts,2022-05-10 This volume focuses on Chinese economic statecraft during the first decade of Deng Xiaoping s reform and opening up policies from 1978 to 1989 During these years Chinese economic engagement with the external world was tentative and experimental with long term strategies still decidedly under development Prominent topics covered are China s efforts to steer an economic course tailored to and representing what Deng Xiaoping famously described as socialism with Chinese characteristics China s quest for advanced science and technology China s dealings with international economic institutions especially the World Bank China s engagement with other powers including Japan the United States the ASEAN nations and Europe and the role of non governmental organizations including foreign policy think tanks exchange groups and educational institutions in developing Chinese economic thinking and methodology during this decade Contributors also focus on how elements of the Chinese military turned to building China s new economic infrastructure and on Chinese efforts to break into foreign markets The volume ends with an overview and reassessment of earlier findings on Chinese economic statecraft in these years by one of the leading Chinese experts on the PRC s international policy The Sublime Today Gillian B. Pierce,2013-01-04 The Sublime Today considers contemporary applications of aesthetic philosophy and earlier theories of the sublime from Longinus Boileau Burke Kant and Hegel to current literary and cultural contexts Today aesthetic experience itself seems to be changing given the rise of new media and new conditions for the viewing and the reception of works of art How might the rhetoric of the sublime be used to both describe our current situation and help formulate constructive responses to it The Sublime Today collects the work of scholars in literature film art and media studies and provides a forum

for investigating the contemporary relevance of the sublime both as it has been understood historically and as it has been formulated by more recent theorists such as Jameson Lyotard Kristeva and others The volume includes essays on literary readings of the sublime in Coetzee Eggers Lahiri and Auster essays on film and the visual arts in the work of Fran ois Ozon and in recent participatory art and essays on how new technologies and media as in media representations of 9 11 re frame our relationship to the aesthetics of the sublime especially as they intersect with questions of gender the postcolonial and the uneasy politics of terror
