

Important: Keep for future reference

Even if you have ridden a bicycle for years, it is important for EVERY person to read Chapter 1 before riding this bicycle!
This manual shows how to ride your new bicycle safely. Parents should speak about Chapter 1 to a child or person who might not understand this manual, especially regarding safety issues such as the use of a coaster brake.

This manual also shows you how to do basic maintenance. Some tasks should only be done by your retailer, and this manual identifies them.

About the CD

This manual includes a CD (compact disc), which provides more comprehensive information. Please view the CD to see information that is specific to your bicycle. If you do not have a computer at home, view the CD on a computer at school, work, or the public library. If your CD does not operate, the same information is on our web site. The address for the web site is on the cover of this manual.

Register your bicycle

Bicycle registration is the only record we have of who owns this bicycle. If it is necessary to give you new instructions, your registration will provide us with your contact information. If you choose to not complete the registration, make sure you go to the web site frequently. Also, registration and proof of purchase are necessary to make a warranty claim.

It is easy to register on the Trek web site. Choose the web site for your country. If you cannot find one for your country, use the web site for the U.S.:

- On the CD, click the link "Register."
- Go to the web address on the cover of this manual and click the links.

Keep this manual with the bicycle

This manual is considered a part of the bicycle that you have purchased. If you sell the bicycle, please give this manual to the new owner.

Meaning of safety signs and language

In this manual, the Safety Alert symbol, a triangle with an exclamation mark, shows a hazardous situation which, if not avoided, could cause injury. The most common cause of injury is falling off the bicycle. Even a fall at slow speed can cause severe injury or death, so avoid any situation with the special markings of a grey box, safety alert symbol, and these signal words:

'CAUTION' indicates the possibility of mild or moderate injury.

'WARNING' indicates the possibility of serious injury or death.

This manual complies with these standards:

The Fast-track Course on how to Write a Nonfiction Book Proposal

Stephen Blake Mettee, 2002 The hard cold fact about getting a book published is that without something close to divine intervention an author is going to have to write a sales piece called a book proposal that will attract the attention of an editor or an agent In fact at most publishers this sales piece is going to have to hold up under the scrutiny of a committee made up of a bevy of editors and a pod of sales and marketing people With The Fast Track Course on How to Write a Nonfiction Book Proposal Mettee a seasoned book editor and publisher cuts to the chase and provides simple detailed instruction that allows anyone to write a professional book proposal and hear an editor say Yes According to Mettee the first rule is Do no harm Too many authors don't pay enough attention to the small things like spelling and grammar and manuscript format that are needed to make their book proposals appear professional They may have a great idea for a book and be eminently qualified to write it but they schmuck it up with slovenly disregard for the easy stuff The last rule is Be persistent If you quit after your first rejection slip or after the thirteenth or the thirtieth you'll never get published Many books that are rejected scores of times go on to be best sellers You're not defeated until you give up
