

When used as directed. Results will vary based on skin tone, hair color, and other factors. Some users may require additional treatments to achieve the desired results and may opt for occasional touch-ups using other hair removal methods.

Tria gets to the root of hair removal

Tria Hair Removal Lasers are the only at-home hair removal devices featuring diode lasers, which disable the hair follicle by targeting the melanin at the root without damaging the surrounding skin.

1. TARGET THE HAIR FOLLICLE

Tria Lasers target the pigment in the hair follicle just like professional lasers.

2. FOLLICLE BECOMES DISABLED

The disabled hair begins to fall out, leaving behind more touchable, softer skin.

3. FOLLICLE PERMANENTLY DISABLED

The laser permanently disables the hair follicles' ability to regrow hair.

Our most advanced device-Tria Laser 4X

Tria Laser 4X embodies the beauty of technology at its best.
