

Wetlands Activity Guide

Wetlands are amazing ecosystems and can be found all over the United States. They occur along the boundaries of streams, lakes, ponds or even in large shallow holes that fill up with rainwater. In order to have a wetland, you need to have some low-lying land, add water, then mix in lots of plants that have living wet "feet" (roots) and finally add some animals. There are many kinds of wetlands: marshes, bogs, swamps, fens, and prairie potholes to name a few. These places can look very different, but because they are all areas with wet soil, or where water covers the soil, they are considered wetlands.
