The enclosed contributions draw from different disciplines including legal studies, sociology, psychology, computer science, and public policy. Accessing Post-School Studies Venicia McGhie & Madge du Preez, 2017-12-01. Accessing Post-School Studies: A student's GPS to successful learning makes a valuable contribution to often problematic and pertinent South African higher education issues such as student access and success, student learning, student support, and student engagement. In this regard, the authors draw on the works of higher education theorists such as Kuh, Tinto, Marton, and Sijltjens. The book is primarily a helpful resource for South African learners in school, students at universities, life orientation teachers, as well as parents of prospective university students. **From School to Higher Education?** Michael Cosser, Jacques Du Toit, 2002. This substantive report is essential reading for those involved in higher education planning and policy making. Inclusive Education in South African Further and Higher Education Tsediso Michael Makoelle, Cina P. Mosito, 2025-05-26. **Government Managing Risk** Bruce Chapman, 2006-09-27. Higher education rates are increasing throughout the Western world, yet at the same time, government budgets face increasing constraints. This has ensured that the importance of student support is recognized in many countries. In recent years, there has been a world-wide movement towards the use of income-contingent loans (ICL) for higher education. ICLs are now used in six countries, following the Australian innovation of 1989, with the governments of many more countries looking very seriously at the model. This impressive new book by Bruce Chapman analyzes ICLs, particularly their use in supporting students, exploring the experiences of a number of other countries adopting them. Chapman presents analysis of a number of disparate case studies to illustrate how ICLs can aid risk management policy reforming in both progressive and administratively feasible ways. This book describes, examines, and promotes an exciting new role for the public sector as a manager of risk and argues that ICLs have enormous potential to change the extent and nature of social and economic activities. With the author's experience in the design and implementation of the Australian student financial support schemes, this is a knowledgeable, informative, and enlightening book that will be useful to researchers, students, and policy makers alike.

*Low-Income Students, Human Development and Higher Education in South Africa* Melanie Walker, Monica McLean, 2022-07-15. This book explores learning outcomes for low-income rural and township youth at five South African universities.
