Reflective Practice And Supervision For Coaches Hay, Julie,2007-02-01 This book contains List of activities List of figures About this book Setting the scene Reflection in action Doing it with others Reflecting on stages Reflecting on process Reflecting systemically Contracting and boundaries Psychological underpinnings Cross cultural considerations What now Glossary Bibliography Index *The Situational Mentor* Gill Lane,2016-02-24 Because the mentoring process involves a number of distinct stages a wide range of skills are needed throughout the process and these skills are situational In other words a skilled mentor understands the principles of mentoring but is also able to use appropriate skills according to the person with whom they are working and the stage they have reached in the relationship In addition different types of mentoring programme will demand a skills set particular to each As with many other areas of development a mix of the theoretical and the practical is needed to ensure that programmes and relationships achieve their potential In *The Situational Mentor* An International Review of Competences and Capabilities in Mentoring David Clutterbuck and Gill Lane have brought together contributions from leading international academics and practitioners to define the key skills involved in mentoring and explore how these may be tailored to ensure a successful outcome in all instances Learner-Centered Leadership Arnold B. Danzig,Kathryn M. Borman,Bruce A. Jones,William F. Wright,2017-09-25 Many new approaches to school

improvement are being proposed in the current climate of assessment and school accountability This book explores one of these approaches a new model of leadership training known as Learner Centered Leadership LCL It is built around the fundamental idea that learning and learning communities are natural processes that when properly harnessed can lead to the highest levels of professional engagement and problem solving Key features of this exciting new approach to school leadership include the following Broad based and Generative The book s narratives vividly illustrate the extraordinary ability of LCL to generate new approaches to leadership development For example encouraging and assisting school leaders to reflect on their own leadership attributes relative to the implementation of the school mission to ensure high teacher efficacy and student learning In this respect the volume contributes significantly to the field of school leadership and professional development by extending above and beyond a narrow focus on instructional leadership Practice Oriented By creating communities that encourage conversation and analysis the new data driven models of school improvement are more likely to be successfully implemented Without analytical discourse the process of interpreting school data and transforming it into practice would be largely lost Conceptually Appropriate The realization that everyone within a school students teachers administrators belongs to the same learning community minimizes status differences and encourages teamwork The LCL administrator is much less likely to be authoritarian and power oriented and much more likely to be transformative and student outcome focused This book is appropriate for master s level courses and certification seminars and for inservice workshops dealing with school leadership
