Gigliotti,Who HQ,2019-06-04 Learn more about the renowned British scientist professor and author who spent his entire career trying to answer the question Where did the universe come from Stephen Hawking was born exactly three hundred

years after the death of the scientist Galileo so maybe it was written in the stars that he would become a famous scientist in his own right Although he was diagnosed with a neurological disease at age 21 Stephen did not let the illness define his life Known for his groundbreaking work in physics and identified by his wheelchair and computerized voice system Stephen continued his research until his death in 2018 He is best known for his black hole theories and his best selling book *A Brief History of Time* Stephen Hawking is an example of a person who had a great mind but an even greater spirit

Technofeminist Storiographies Kristine L. Blair, 2018-12-20 *Technofeminist Storiographies* Women Information Technology and Cultural Representation analyzes both historical and contemporary accounts of women's lived experiences of technology from Ada Lovelace and Hedy Lamarr to women working across the tech industry today and juxtaposes them with larger cultural representations of women and technology The book explores both the relationship between gender and technology and the cultural contexts that enable and constrain that relationship questions that call for opportunities for women to share their lived experiences and to have such experiences represented across media genres Despite the rich complex stories and histories women have with technology as programmers inventors and workers media throughout history including film television games toys children's books and biographies often inadequately and inaccurately represent them Throughout the book Kristine Blair chronicles the portrayal of the relationship between women and information technology across these media genres Inevitably the societal conditions that surround technology use including portrayal through popular media impact the extent to which women and girls gain and maintain access within those cultural contexts This book calls for a more visible history of women's technological achievements in which their stories are heard for generations to come rather than be forgotten and unknown

Stephen Hawking Kitty Ferguson, 2019-10-10 Stephen Hawking was diagnosed with motor neurone disease at the age of 21 and was expected to live for only another two years He went on to write books and deliver public lectures right up until his death at the age of 76 in 2018 Hawking achieved commercial success with several works of popular science in which he discusses his own theories and cosmology in general His book *A Brief History of Time* a layman's guide to cosmology appeared on the Sunday Times best seller list for a record breaking 237 weeks and sold more than 10 million copies As Martin Rees the cosmologist astronomer royal and Hawking's longtime colleague wrote His name will live in the annals of science millions have had their cosmic horizons widened by his best selling books and even more around the world have been inspired by a unique example of achievement against all the odds a manifestation of amazing willpower and determination In this concise and informative guide to Hawking's life and work his key scientific achievements from gravitational singularities to quantum cosmology are covered in an approachable and accessible way This is a celebration of an icon of modern physics who inspired generations of scientists and changed our understanding of the universe

Stephen Hawking Joel Levy, 2021-07-15 Physicist Stephen Hawking was a scientist for the modern age He is as renowned for his theories on time and space as he is for his unique life story Undeterred by a

debilitating illness he trained his mind to work in a new way to become the leading light in modern science This carefully researched biography tells Hawking s story highlighting his scientific breakthroughs and how despite his struggle with a degenerative condition he became the most celebrated and inspiring scientist of his generation A beautiful design includes striking photographs illuminating documents and helpful sidebars that cast light on Hawking s intellectual achievements

The Theatrical Professoriate Emily Roxworthy,2019-12-06 This book argues that today s professoriate has become increasingly theatrical largely as a result of neoliberal policies in higher education but also in response to an anti intellectual scrutiny that has become pervasive throughout the Western world The Theatrical Professoriate Contemporary Higher Education and Its Academic Dramas examines how the Western professoriate increasingly finds itself enacting command performances that utilize scripting characterization surrogation and spectacle the hallmarks of theatricality toward neoliberal ends Roxworthy explores how the theatrical nature of today s professoriate and the resultant glut of performances about academia on stage and screen have contributed to a highly ambivalent public fascination with academia She further documents the theatrical turn witnessed in American higher education as academic institutions use performance to intervene in the diversity issues and disciplinary disparities fueled by neoliberalism By analyzing academic dramas and their audience reception alongside theoretical approaches the author reveals how contemporary academia drives the professoriate to perform in what seem like increasingly artificial ways Ideal for practitioners and students of education ethnic and science studies The Theatrical Professoriate deftly intervenes in Performance Studies still unsettled debates over the differential impact of live versus mediated performances

The Unknown Cities Abeer Elshater,2016-04-22 This book investigates the many relatively unknown Egyptian cities which research has largely ignored It seeks to enhance the livability of urban areas and stop the processes that turn residents into anti utopians and their cities into dystopias It examines urbanization patterns in what are currently rural or informal settlements It draws on concepts from Western and Arabic thought concerning idealism and utopianism linking anti utopianism with ideas such as loss of hope and residents right to the city It also investigates the epistemology and methodology of urban design using the descriptive analytical approach to evaluate methods of self criticism to address the problems and enhance urban planning and design The literature regarding ten minute neighborhoods is reviewed along with a comparative content analysis of online articles and the resultant principles are tested through site observation It is found that happiness can be promoted by the principle of ten minute pedestrian access to essential services which can viably guide the reformation of urban planning This work recommends that urban planning should be based on the ten minute neighborhood thus improving the future prospects of utopianism in Egypts unknown cities Recently in the first decade of the twenty first century there was a definite human crisis that emerged in the Egyptian cities at the level of local urban communities which reflects on the whole city and the attached ones The problem seems to be in the transformation of some urban sites in the metropolitan and small cities to become dystopian places

regarding the dynamic impact of the anti utopian people The concept of anti utopians stands as an intermediate step between livable cities and dystopian communities through the transformation that occurs due to the lack of strategic plans by the administrators and or the experts with a special mention to the plans for poor people Therefore from our perspective there is an urgent need to say that the majority of Egyptian cities should be declared as domains of humanitarian disasters which are caused by human hazards rather than the natural disasters e g earthquakes volcanoes floods whirlwinds and hurricanes Thus the first headmost city that will announce its failure in the structural and human scene will get the self respect and worlds estimate as well

A Life Impossible Steve Gleason, Jeff Duncan, 2025-05-06 From NFL player Steve Gleason a powerful inspiring memoir of love heartbreak resilience family and remarkable triumph in the face of ALS Gleason is a symbol of resilience hope and optimism The New York Times Steve Gleason has changed the world Roger Goodell NFL Commissioner An extraordinary book *A Life Impossible* will change the way people cope think and live Mike Lupica co author with James Patterson of *12 Months to Live* In 2011 three years after leaving the NFL Steve Gleason was diagnosed with ALS a terminal disease that takes away the ability to move talk and breathe Doctors gave him three years to live He was thirty three years old As Steve says he is now ten years past his expiration date His memoir is the chronicle of a remarkable life one filled with optimism and joy despite the trauma and pain and despair he has experienced Writing using eye tracking technology Gleason covers his pre ALS life through the highs and lows of his NFL career with the New Orleans Saints where he made one of the most memorable plays in Saints history leading to a victory in the first post Katrina home game uplifting the city making him a hero and reflected in a nine foot bronze statue outside the Superdome Then came his heartbreaking diagnosis Gleason lost all muscle function he now uses Stephen Hawking like technology to communicate and breathes with the help of a ventilator This book captures Gleason and his wife Michel's unmatched resilience as they reinvent their lives refuse to succumb to despair and face his disease realistically and existentially This unsparing portrait argues that a person's true strength does not reside solely in one's body but also in the ability to face unfathomable adversity and still be able to love and treasure life
