Tree Of Codes Jonathan Safran Foer:

Tree of Codes Jonathan Safran Foer, 2010 A masterful work of storytelling a unique sculptural object created through a collaborative process between Visual Editions and author A curiosity with the die cut technique was combined with the pages physical relationship to one another and how this could somehow be developed to work with a meaningful narrative This led to Jonathan deciding to use an existing piece of text and cut a new story out of it his favourite book *The Street of Crocodiles* by Bruno Schulz Writing cutting and proto typing has created a new story cut from the words of an old favourite

Bookishness Jessica Pressman, 2020-12-01 Twenty first century culture is obsessed with books In a time when many voices have joined to predict the death of print books continue to resurface in new and unexpected ways From the proliferation of shelfies to Jane Austen themed leggings and from decorative pillows printed with beloved book covers to bookwork sculptures exhibited in prestigious collections books are everywhere and are not just for reading Writers have caught up with this trend many contemporary novels depict books as central characters or fetishize paper and print thematically and formally In *Bookishness* Jessica Pressman examines the new status of the book as object and symbol She explores the rise of bookishness as an identity and an aesthetic strategy that proliferates from store window display to experimental writing Ranging from literature to kitsch objects stop motion animation films to book design Pressman considers the multivalent meanings of books in contemporary culture Books can represent shelter from or a weapon against the dangers of the digital they can act as memorials and express a sense of loss Examining the works of writers such as Jonathan Safran Foer Jennifer Egan Mark Z Danielewski and Leanne Shapton Pressman illuminates the status of the book as a fetish object and its significance for understanding contemporary fakery Bringing together media studies book history and literary criticism *Bookishness* explains how books still give meaning to our lives in a digital age **Seven Modes of**

Uncertainty C. Namwali Serpell, 2014-04-30 Literature is uncertain Literature is good for us These two ideas are often taken for granted But what is the relationship between literature's capacity to perplex and its ethical value *Seven Modes of Uncertainty* contends that literary uncertainty is crucial to ethics because it pushes us beyond the limits of our experience

Creative Writing and the Radical Nigel Krauth, 2016-07-18 The rise of digital publishing and the ebook has opened up an array of possibilities for the writer working with innovation in mind *Creative Writing and the Radical* uses an examination of how experimental writers in the past have explored the possibilities of multimodal writing to theorise the nature of writing fiction in the future It is clear that experimental writers rehearsed for technological advances long before they were invented Through an in depth study of writers and their motivations challenges and solutions the author explores the shifts creative writing teachers and students will need to make in order to adapt to a new era of fiction writing and reading **Handbook of the American Novel of the Twentieth and Twenty-First Centuries** Timo Müller, 2017-01-11 Increasing specialization within the discipline of English and American Studies has shifted the focus of scholarly discussion toward theoretical

reflection and cultural contexts These developments have benefitted the discipline in more ways than one but they have also resulted in a certain neglect of close reading As a result students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on dated methodological and ideological presuppositions The handbook aims to fill this gap by providing new readings of texts that figure prominently in the literature classroom and in scholarly debate from James s The Ambassadors to McCarthy s The Road These readings do not revert naively to a time before theory Instead they distil the insights of literary and cultural theory into concise introductions to the historical background the themes the formal strategies and the reception of influential literary texts and they do so in a jargon free language accessible to readers on all levels of qualification

The Rhetoric of the Page Laurie Maguire, 2020-11-03 This wide ranging and entertaining book explores blank space from incunabula to Google books Blanks are a paradox simultaneously nothing and something gesturing to what was once there or might be there They are also a creative opportunity for readers as well as writers readers respond to what is not there and writers come to anticipate that response Thus blank space develops literary and ludic applications Each chapter focuses on one typographical form of what is not there on the page physical gaps Chapter One marks of incompleteness such as c Chapter Two and the asterisk as a stand in for things that cannot be said Chapter Three By looking at the early modern page as a visual unit as well as a verbal unit this volume shows how the relationship between textual layout and textual content is as productive for writers as it is for readers Mise en page influences readers in the same way that rhetoric influences readers It is thus possible to speak of the rhetoric of the page

Fictionality and Multimodal Narratives Torsa Ghosal, Alison Gibbons, 2023-08 Fictionality and Multimodal Narratives interrogates the relationship of fictionality and the multimodal use of fact in modern narrative construction

Untranslatability Duncan Large, Motoko Akashi, Wanda Józwikowska, Emily Rose, 2018-07-27 This volume is the first of its kind to explore the notion of untranslatability from a wide variety of interdisciplinary perspectives and its implications within the broader context of translation studies Featuring contributions from both leading authorities and emerging scholars in the field the book looks to go beyond traditional comparisons of target texts and their sources to more rigorously investigate the myriad ways in which the term untranslatability is both conceptualized and applied The first half of the volume focuses on untranslatability as a theoretical or philosophical construct both to ground and extend the term s conceptual remit while the second half is composed of case studies in which the term is applied and contextualized in a diverse set of literary text types and genres including poetry philosophical works song lyrics memoir and scripture A final chapter examines untranslatability in the real world and the challenges it brings in practical contexts Extending the conversation in this burgeoning contemporary debate this volume is key reading for graduate students and researchers in translation studies comparative literature gender studies and philosophy of language The editors are grateful to the University of East Anglia Faculty of Arts and Humanities who supported the book with a publication grant

Succeeding Postmodernism Mary K. Holland, 2013-04-25 While critics collect around the question of what comes after postmodernism this book asks something different about recent American fiction what if we are seeing not the end of postmodernism but its belated success *Succeeding Postmodernism* examines how novels by DeLillo Wallace Danielewski Foer and others conceptualize threats to individuals and communities posed by a poststructural culture of mediation and simulation and possible ways of resisting the disaffected solipsism bred by that culture Ultimately it finds that twenty first century American fiction sets aside the postmodern problem of how language does or does not mean in order to raise the reassuringly retro question of what it can and does mean it finds that novels today offer language as solution to the problem of language Thus it suggests a new way of reading antihumanist late postmodern fiction and a framework for understanding postmodern and twenty first century fiction as participating in a long and newly enlivened tradition of humanism and realism in literature
