The Authentic University proposes to overcome the manifold shortcomings of the contemporary postsecondary school by offering an innovative education that corresponds to the realities of the modern era. This university blends three distinct concepts of student-centered education to provide students with a personalized learning experience that develops distinct skills and

competencies required by today's employers. Students can save time, money, and effort while learning the information and applications that they want and need. Contained within the covers of this groundbreaking book lies a thorough description of everything that educational stakeholders must know about the Authentic University, including supporting literature and practical models alongside strategies for planning and implementation. The world has passed the university by and will not wait for education to keep pace with its ever-evolving information and communication technology situated in an increasingly entrepreneurial economy. We, as educational stakeholders, must meet the challenge of change in an urgent way. The first step toward bringing the university into the modern era begins with this book, the manual for a radically new type of education termed the Authentic University.
