

Protozoa, Fungi Worksheet

Organism A moves by means of _____

Organism A is this type of protozoan, a(n) _____

Organism A is a(n) _____

Organism B moves by means of a(n) _____

Organism B is this type of protist, a(n) _____

Organism B is a(n) _____

Organism C moves by means of _____

Organism C is a type of protozoan, a(n) _____

Organism C is a(n) _____

All protists are (circle) →

Unicellular

or

Multicellular

Prokaryotic

or

Eukaryotic

Autotrophic

or

Heterotrophic

Name the 3 major divisions of protists and the characteristic by which they are classified:

a. _____ - → _____

b. _____ - → _____

c. _____ - → _____

List 3 example of unicellular algae:

a. _____

b. _____

c. _____

List 3 examples of multi-cellular algae

a. _____

b. _____

c. _____

Elementary Zoology Parent Lesson Plan ,2013-10-01 This Elementary Zoology Curriculum Guide contains materials for use with The World of Animals Dinosaur Activity Book The Complete Aquarium Adventure and The Complete Zoo Adventure Lesson Planner Weekly Lesson Schedule Student Worksheets Quizzes Test Answer Key 4th 6th grade 1 Year Science 1 2 Credit Features Each suggested weekly schedule has three easy to manage lessons which combine reading worksheets and vocabulary building opportunities including an expanded glossary for each book Designed to allow your student to be independent materials in this resource are divided by section so you can remove quizzes tests and answer keys before beginning the coursework As always you are encouraged to adjust the schedule and materials as you need to in order to best work within your educational program Workflow Students will read the pages in their book and then complete each section of the study guide worksheets Tests are given at regular intervals with space to record each grade Younger students may be given the option of taking open book tests Lesson Scheduling Space is given for assignment dates There is flexibility in scheduling For example the parent may opt for a M W schedule rather than a M W F schedule Each week listed has five days but due to vacations the school work week may not be M F Please adapt the days to your school schedule As the student completes each assignment he she should put an X in the box

Intro to Oceanography & Ecology Parent Lesson Plan ,2013-08-01 Introduction to Ocean and Ecology Course Description This is the suggested course sequence that allows one core area of science to be studied per semester You can change the sequence of the semesters per the needs or interests of your student materials for each semester are independent of one another to allow flexibility Semester 1 Oceans The oceans may well be earth s final frontier These dark and sometimes mysterious waters cover 71 percent of the surface area of the globe and have yet to be fully explored Under the waves a watery world of frail splendor foreboding creatures and sights beyond imagination awaits The Ocean Book will teach you about giant squid and other monsters of the seas centuries of ocean exploration hydrothermal vents the ingredients that make up the ocean harnessing the oceans energy icebergs coral reefs ships submarines and other ocean vessels the major ocean currents El Ni o whirlpools and hurricanes harvesting the ocean s resources whales dolphins fish and other sea creatures Learning about the oceans and their hidden contents can be exciting and rewarding The abundance and diversity of life the wealth of resources and the simple mysteries there have intrigued explorers and scientists for centuries A better understanding of our oceans ensures careful conservation of their grandeur and beauty for future generations and lead to a deeper respect for the delicate balance of life on planet Earth Semester 2 Ecology Study the relationship between living organisms and our place in God s wondrous creation Learn important words and concepts from different habitats around the world to mutual symbiosis as a product of the relational character of God This is a powerful biology focused course specially designed for multi age teaching Students will Study the intricate relationship between living organisms and our place in God s wondrous creation Examine important words and

concepts from different habitats around the world to our stewardship of the world's resources Gain insight into influential scientists and their work More fully understand practical aspects of stewardship Investigate ecological interactions and connections in creation The Ecology Book encourages an understanding of a world designed not as a series of random evolutionary accidents but instead as a wondrous well designed system of life around the globe created to enrich and support its different features Activities provide additional ways to make the learning experience practical **Te HS&T a Holt** Rinehart & Winston, Holt, Rinehart and Winston Staff, 2004-02 *Holt Science & Technology* Holt Rinehart & Winston, 2004

Teacher's Wraparound Edition: Two Biology Everyday Experience Albert Kaskel, 1994-04-19 **Elementary Zoology (Teacher Guide)** Master Books, 2017-04-25 What elementary student doesn't love animals Encourage your child's love for animals with this compelling informative zoology curriculum features a biblical worldview Elementary Zoology combines the study of both land animals and sea creatures complete with trips to the zoo and aquarium In addition to all of the scientific facts and trivia it teaches the class also includes exciting hands on activities that will delight children Our unique package gives the teacher an easy to use daily plan to turn these wonderful resources into a complete year of learning your student is going to love Elementary Science: Soil, Sea, and Sky (Teacher Guide), 2017-04-05 Make science fun by exploring clouds ocean depths the water cycle how coal is formed and more in this fact filled course with helpful schedule Also learn more about plants animals insects and their relationships with one another in the natural world Workflow Students will read the pages in their book and then complete each section of the Teacher Guide They should be encouraged to complete as many of the activities and projects as possible as well Tests are given at regular intervals with space to record each grade If used with younger students they may be given the option of only choosing activities or projects of interest to them and taking open book tests Lesson Scheduling Students are instructed to read the pages in their book and then complete the corresponding section provided by the teacher Assessments that may include worksheets activities quizzes and tests are given at regular intervals with space to record each grade Space is provided on the weekly schedule for assignment dates and flexibility in scheduling is encouraged Teachers may adapt the scheduled days per each unique student situation As the student completes each assignment this can be marked with an X in the box **Holt Biology** Holt Rinehart & Winston, 2003-08 **Prentice Hall Science Explorer: Teacher's ed**, 2005 Glencoe Science, 2002 Case Studies in Science Education University of Illinois at Urbana-Champaign. Center for Instructional Research and Curriculum Evaluation, 1978 *Case Studies in Science Education: The case reports*, 1978 Critical Investigations Into Interns' Urban Teaching Apprenticeship Experiences John Lockhart, 2009 A critical task for public school teachers is to build and maintain productive relationships with their students especially to facilitate learning That task is particularly important in preparing new teachers for urban schools because cultural differences between the majority of urban teachers and their students can complicate and impair those relationships Multicultural education literature often describes and analyzes

preservice teachers typically white middle class not urban and often female who are entering urban environments as being resistant to learning about race and class That research has usually been conducted on preservice teachers in their coursework often in the lone required diversity course and apart from practice work in the schools This study is guided by the theory that in situations people rely upon the habits of thought feeling attitude and action they ve developed through interaction with others and that people experience a strong continuity in the use of those habits during life Though these habits may help one to negotiate situations they may also be a hindrance especially in situations significantly different from familiar ones I studied three interns from white middle class suburban and rural backgrounds who were placed in urban high schools with many nonwhite students from working class backgrounds to examine this central question How did the three interns use the habits they formed as honors students in mainly white monolingual middle class rural or suburban schools and communities with their characteristics to forge conceptions and practices for teaching students in urban high schools and communities with characteristics that differ appreciably I conducted this study in the interns placements using classroom observations follow up interviews and data from university coursework to analyze the meaning of the intern s experiences for them I highlight how interns habitual views of race and class were consistent with descriptions in the literature and impacted their practices However I also analyze an important dimension not often considered how interns habits of being good students hindered their abilities to connect with their students who generally did not have the same positive attitude toward schools as the interns I then present a case study of each intern to analyze their teaching practices which mostly involved lecture worksheets and recitation In doing so I demonstrate how resistance was operating but also show a variety of factors that complicated interns efforts to develop competence as teachers including their efforts to form relationships with their students I explore how the interns made sense of their situations in ways that negated issues of race and class Because the interns struggles to learn how to teach included but exceeded the scope of the resistance argument I argue for a reconceptualization of resistance that recognizes it as an expected reaction when a piece of an intern s valued identity is under assault by experiences for which habits are largely unequipped to deal I argue that such a conceptualization can help teacher educators to work with interns more effectively as learners in very unfamiliar and uncomfortable territory I discuss some possible directions for teaching and research for teacher educators who undertake the charge of preparing future teachers to work with students from different backgrounds The dissertation citations contained here are published with the permission of ProQuest llc Further reproduction is prohibited without permission Copies of dissertations may be obtained by Telephone 800 1 800 521 0600 Web page <http://www.proquest.com/en-US/products/dissertations/individuals.shtml>
