efficient roll forming simulation using non conformal meshes - Dec 09 2022

web may 5 2023 simulations of industrial roll forming processes using the finite element method typically require an extremely fine discretization to obtain accurate results running those models using a classical finite element method usually leads to suboptimal meshes where some regions are unnecessarily over refined an alternative approach consists in

modelling and simulation of the roll forming - Aug 17 2023

web 2 1 1 strain histories in roll forming the strain history when forming a u channel in roll forming has been measured in several experiments 6 8 the experiments show figure 5 that the longitudinal flange strain starts between the forming stations

and increases rapidly to a maximum value just before the centre of the forming station

simulation research on roll forming in container roof - Jan 10 2023

web apr 1 2021 the finite element simulation of the roll forming process of the container roof is carried out and the stress strain and history curves of key nodes are analyzed it is proved that the rolling process will produce edge wave and wrinkle defects in the flat section and the influence of parameters on the edge wave wrinkle is studied
