University Of Limpopo Application For 2015:

Culture, philosophies and reforms in public administration for the globalizing world Edwin O.C. Ijeoma, Ogochukwu I. Nzewi, 2018-12-31 The aim of this scholarly collected work is to contribute to the scientific discourse on public administration in a globalised environment The book reflects on governance challenges in South Africa and in Africa with its point of departure being the master narratives the so called grand debates such as New Public Management and specifically the role of technology It also reflects on the so called middle range discourses concerning organisational level issues in government e g leadership and work procedures and explores new solutions to old governance challenges like corruption and service delivery The uniqueness of this collected work lies in its ability to reflect on existing philosophies and practices in an innovative way Through its multidisciplinary lens the book opens up a new vision for the future of public administration in the South African context and on the African continent not neglecting the current local regional and global environment Until recently globalisation was considered an entrenched world order but international political events during the course of the past few years have resulted in one of the biggest challenges to its endurance in recent history This includes developments such as the successful referendum in Britain to exit the European Union highlighting the growth of a severe nationalist and protectionist agenda that may be a signal of the unravelling of the current globalism world order These developments inspire deeper interrogation of the challenges to effective public administration globally and the ripple effects in South Africa and Africa as a whole Pointedly it is evident that ensuring the voice of citizens in policy decision making remains a critical governance challenge On the policy front there are perennial challenges of land reform service delivery and poverty while on the governance front corruption has metastasised with a growing culture of impunity and lack of accountability in leadership In the midst of growing corruption and more than 20 years into democracy South Africa's income inequality remains one of the highest in the world This setting constitutes the context of the research outcome published in this scholarly work

Campus Student Activism, Politics, and Citizenship in the 21st Century Tshishonga, Ndwakhulu, 2025-04-03 Student activism and citizenship remain an integral part of the governance of academic institutions democratizing the learning environment and advancing democratic values and societal change As a result student activism has become a key aspect of the global higher education landscape Individually and through the student councils students have been at the forefront fighting for social justice and equality inside their academic institutions and in larger society by fusing activism with citizenship Through student activism and citizenship students demonstrate their power to keep governments responsible and in redirecting the voices of students in higher education's decision making processes Further exploration may afford students the opportunity to influence social change by partaking in educational policy reforms and broadening global sociopolitical and economic growth Campus Student Activism Politics and Citizenship in the 21st Century examines the dynamics of campus politics through student activism and citizenship perspectives academia public private and civil society

sectors It explores how student leadership engages university society stakeholders including management and governance structures and student welfare and institutional policy reformation in defense of the rights and interests of students This book covers topics such as higher education political engagement and social justice and is a useful resource for policymakers government officials sociologists political scientists academicians and researchers *Cross-Cultural Design. Applications in Cultural Heritage, Creativity and Social Development* Pei-Luen Patrick Rau, 2018-07-10 This two volume set LNCS 10911 and 10912 constitutes the refereed proceedings of the 10th International Conference on Cross Cultural Design CCD 2018 held as part of HCI International 2018 in Las Vegas NV USA in July 2018 The total of 1170 papers and 195 posters included in the 30 HCII 2018 proceedings volumes was carefully reviewed and selected from 4373 submissions The 37 regular papers presented in this volume were organized in topical sections named culture learning and games culture and creativity cross cultural design for social change and development *Goat Science* Sándor Kukovics, 2023-01-18 This volume provides a comprehensive overview of goat keeping and farming It includes twenty two chapters that address such topics as breeding and selection goat reproduction production systems the effects of goat farming on the environment the use of goat byproducts the economics of goat farming and much more *The South African State Transformed?* Louis A. Picard, Thomas M. Mogale, Caitlin C. Corrigan, 2024-09-10 This book examines the nature of the 1994 political transition in South Africa and its impact on post apartheid South Africa Specifically it examines the failures of liberalism within the context of the transitional process that led to the institution if not the practice of a non racial state in 1994 The term liberal is an eclectic term defining a several of views political and economic We use the term here within context but essentially define it as a commitment to open views the willingness to consider change and to value basic human rights The nature of institutional change in South Africa as it moved towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist democratic country or collapse into yet another African failed state As South Africa moves toward its fourth decade of majority rule the view towards the future is much less promising than it was in 1994

Advances in Production, Logistics and Traffic Uwe Clausen, Sven Langkau, Felix Kreuz, 2019-02-25 The series of Interdisciplinary Conferences on Production Logistics and Traffic ICPLT address the research community as well as practitioners in these fields with special attention to links and interfaces between the three disciplines The fourth ICPLT in particular deals with technology from intralogistics to automated trucking driving as well as the societal aspects of commercial transport To contribute to a high level and beneficial exchange between authorities in politics and municipalities with researchers and practitioners in production and logistics management the ICPLT has asked for contributions from the three disciplines to better understand innovative technologies best practises and latest results These contributions have been evaluated and selected based on a double blind review process to become part of this book It comprises 21 contributions examining trends and challenges for commercial transport as the essential link for production logistics and society Therefore
