Imperial Sexism Denise M. Walsh, Associate Professor of Politics Denise M Walsh, 2025-10-03 The 1972 photograph said it all Three young Afghani women strolling in downtown Kabul wearing miniskirts The stark contrast with their 21st century burka wearing sisters was undeniable Years later many Afghani women in Kabul concealed themselves from view under sky blue cloaks that enveloped their bodies from head to toe their faces covered by a mesh screen These women lived under the threat of the Taliban an ultraconservative militant group determined to impose an austere version of Islam on the entire country During his first term President Donald J Trump showed little interest in these blue bundled women For years he had derided U S involvement in Afghanistan lambasting its expense railing against

Afghanis whom he claimed hated us inveighing against the conflict as a total disaster 1 Once in the Oval Office Trump resolutely pursued an end to America s longest war Provided by publisher Land, Law and Chiefs in Rural South Africa William Beinart,Rosalie Kingwill,Gavin Capps,2021-05-01 This edited collection illustrates contestations over land and political authority in South Africa s rural areas focusing on threats to popular rights and how they are being supported Who controls the land and minerals in the former Bantustans of South Africa chiefs the state or landholders Disputes are taking place around the ownership of resources decisions about their exploitation and who should benefit With respect to all of these issues the courts have become increasingly important The contributors to Land Law and Chiefs in Rural South Africa capture some of these intense contestations over land law and political authority focussing on threats to the rights of ordinary people History and customary law feature strongly in most disputes and succession to chieftaincy is also frequently disputed Judges have to make decisions in a context where rival claimants to property or office assert their own versions of history and custom The South African constitution recognizes customary law and the courts are attempting to incorporate and develop this branch of jurisprudence as living customary law Lawyers community leaders and academics are called on to assist in researching cases around restitution land rights and customary law The chapters in this collection discuss legal cases and policy directions that have evolved since 1994 Some chapters analyze the increasing power of chiefs in the South African rural areas while others suggest that the courts are giving support to popular rights over land and supporting local democratic processes Contributors record significant pushback from groups that reject traditional authority These political tensions are a central theme of the collection and thus serve as vital case studies in furthering our understanding of rights and restitution in South Africa **The Oxford Handbook of the South African Economy** Arkebe Oqubay,Fiona Tregenna,Imraan Valodia,2021-11-18 While sharing some characteristics with other middle income countries South Africa is a country with a unique economic history and distinctive economic features It is a regional economic powerhouse that plays a significant role not only in southern Africa and in the continent but also as a member of BRICS However there has been a lack of structural transformation and weak economic growth and South Africa faces the profound triple challenges of poverty inequality and unemployment Any meaningful debate about economic policies to address these challenges needs to be informed by a deep understanding of historical developments robust empirical evidence and rigorous analysis of South Africa s complex economic landscape This volume seeks to provide a wide ranging set of original detailed and state of the art analytical perspectives that contribute to scientific knowledge as well as to well informed and productive discourse on the South African economy While concentrating on the more recent economic issues facing South Africa the handbook also provides historical and political context It offers an in depth examination of strategic issues in the country s key economic sectors and brings together diverse analytical perspectives *Universities, Inclusive Development and Social Innovation* Claes Brundenius,Bo Göransson,José Manoel Carvalho de Mello,2016-10-25 This book examines the ways in which

Lion's Share Veit Erlmann, 2022-10-28 In the aftermath of apartheid South Africa undertook an ambitious revision of its intellectual property system. In *Lion's Share* Veit Erlmann traces the role of copyright law in this process and its impact on the South African music industry. Although the South African government tied the reform to its postapartheid agenda of redistributive justice and a turn to a postindustrial knowledge economy Erlmann shows how the persistence of structural racism and Euro modernist conceptions of copyright threaten the viability of the reform project. In case studies ranging from antipiracy police raids and the crafting of legislation to protect indigenous expressive practices to the landmark lawsuit against Disney for its appropriation of Solomon Linda's song *Mbube* for its hit *The Lion Sleeps Tonight* from *The Lion King* Erlmann follows the intricacies of musical copyright through the criminal justice system parliamentary committees and the offices of a music licensing and royalty organization. Throughout he demonstrates how copyright law is inextricably entwined with race popular music postcolonial governance indigenous rights and the struggle to create a more equitable society.
