precision rigor and insight we are truly handing over the key to the kingdom Of all the subjects we teach reading is first among equals Grounded in advice from effective classrooms nationwide enhanced with more than 40 video clips Reading Reconsidered takes you into the trenches with actionable guidance from real life educators and instructional champions The authors address the anxiety inducing world of Common Core State Standards distilling from those standards four key ideas that help hone teaching practices both generally and in preparation for assessments This Core of the Core comprises the first half of the book and instructs educators on how to teach students to read harder texts closely read texts rigorously and intentionally read nonfiction more effectively and write more effectively in direct response to texts The second half of Reading Reconsidered reinforces these principles coupling them with the fundamentals of reading instruction a host of techniques and subject specific tools to reconsider how teachers approach such essential topics as vocabulary interactive reading and student autonomy Reading Reconsidered breaks an overly broad issue into clear easy to implement approaches Filled with practical tools including 44 video clips of exemplar teachers demonstrating the techniques and principles in their classrooms note for online access of this content please visit my teachlikeachampion com Recommended book lists Downloadable tips and templates on key topics like reading nonfiction vocabulary instruction and literary terms and definitions Reading Reconsidered provides the framework necessary for teachers to ensure that students forge futures as lifelong readers

The Use and Abuse of EFL Dictionaries Hilary Nesi, 2012-02-14 The book begins with a review of research into dictionary use A number of experimental design problems are discussed in particular the unreliability of questionnaire responses and the need for detailed accounts of individual dictionary consultations whilst sampling in numbers sufficient to represent specified populations The experiments reported in subsequent chapters investigate issues raised in the review The first two studies find that dictionary use during a reading comprehension test affected completion speed but not test scores The apparent failure of dictionary use to improve comprehension is attributed to the test itself the dictionaries and the users choice of look up words The ability of users to interpret dictionary entries is investigated in three further studies which use computers to gather data on large numbers of individual consultations The findings indicate that there is little difference between three major EFL dictionaries in terms of speed of consultation and overall productive success They also indicate that Malaysian ESL subjects who have higher vocabulary scores are slower in their reading and less successful in their interpretation of entries than Portuguese EFL subjects Finally the findings suggest that overall productive success is unaffected by the presence or absence of examples The experimental findings lead to the conclusion that dictionary consultation is a process in which users match pre existing beliefs about word meaning and behaviour against segments in the dictionary entry Such segments are often selected because they are familiar sounding and conceptually accessible but may contain only incomplete or non essential information Where pre existing beliefs and dictionary information conflict dictionary information is sometimes overridden Thus word knowledge acquired from a single consultation is often insufficient

to ensure productive success Although it is probably inevitable that word knowledge will be acquired slowly through multiple encounters modifications to the dictionary entry and the training of users might help to avoid serious misinterpretation of dictionary information
