Mander,2023 This work traces the development of a philosophical theory about causality the volitional theory of causation which supposes the underlying nature of causation as something revealed to us in the experience of our own will It offers both a history of philosophy and a chance to think about the complex puzzles of both causation and human will

Discourses in Pali Bhikkhu Bodhi,2020-12-08 Renowned scholar monk and bestselling translator Bhikkhu Bodhi s definitive practical guide on how to read ancient Buddhist texts in the original language Bhikkhu Bodhi s sophisticated and practical instructions on how to read the Pali of the Buddha s discourses will acquaint students of Early Buddhism with the language and idiom of these sacred texts Here the renowned English translator of the Pali Canon opens a window into key suttas from the Sa yutta Nikaya giving a literal translation of each sentence followed by a more natural English rendering then explaining the grammatical forms involved In this way students can determine the meaning of each word and phrase and gain an intimate familiarity with the distinctive style of the Pali suttas with the words and world of the earliest Buddhist texts Ven Bodhi s meticulously selected anthology of suttas provides a systematic overview of the Buddha s teachings mirroring the four noble truths the most concise formulation of the Buddha s guide to liberation Reading the Buddha s Discourses in Pali shares with readers not only exceptional language instruction but also a nuanced study of the substance style and method of the early Buddhist discourses **Volition's Face** Andrew Escobedo,2017-04-30 Modern readers and writers find it natural to contrast the agency of realistic fictional characters to the constrained range of action typical of literary personifications Yet no commentator before the eighteenth century suggests that prosopopoeia signals a form of reduced agency Andrew Escobedo argues that premodern writers including Spenser Marlowe and Milton understood personification as a literary

expression of will an essentially energetic figure that depicted passion or concept transforming into action As the will emerged as an isolatable faculty in the Christian Middle Ages it was seen not only as the instrument of human agency but also as perversely independent of other human capacities for example intellect and moral character Renaissance accounts of the will conceived of volition both as the means to self creation and the faculty by which we lose control of ourselves After offering a brief history of the will that isolates the distinctive features of the faculty in medieval and Renaissance thought Escobedo makes his case through an examination of several personified figures in Renaissance literature Conscience in the Tudor interludes Despair in Doctor Faustus and book I of The Faerie Queen Love in books III and IV of The Faerie Queen and Sin in Paradise Lost These examples demonstrate that literary personification did not amount to a dim reflection of realistic fictional character but rather that it provided a literary means to explore the numerous conundrums posed by the premodern notion of the human will This book will be of great interest to faculty and graduate students interested in medieval studies and Renaissance literature *Feeling and will* James Mark Baldwin,1891 *This-Worldly Nibbāna* Hsiao-Lan Hu,2011-12-01 Offering a feminist analysis of foundational Buddhist texts along with a Buddhist approach to social issues in a globalized world Hsiao Lan Hu revitalizes Buddhist social ethics for contemporary times Hu s feminist exegesis references the Nik ya s from the Discourse Basket of the P li Canon These texts among the earliest in the Buddhist canon are considered to contain the sayings of the Buddha and his disciples and are recognized by all Buddhist schools At the heart of the ethics that emerges is the Buddhist notion of interdependent co arising which addresses the sexism classism and frequent overemphasis on individual liberation as opposed to communal well being for which Buddhism has been criticized Hu notes the Buddha s challenge to social hierarchies during his life and compares the notion of non Self to the poststructuralist feminist rejection of the autonomous subject maintaining that neither dissolves moral responsibility or agency Notions of kamma nibb na and dukkha suffering are discussed within the communal context offered by insights from interdependent co arising and the Noble Eightfold Path This work uniquely bridges the worlds of Buddhism feminism social ethics and activism and will be of interest to scholars students and readers in all of these areas *Framing Formalism* Richard Woodfield,2013-10-23 Alois Riegl 1858 1905 was one of the founding fathers of modern formalist criticism As a member of the Vienna School of Art Historians he shared their range of interests in the decorative arts art in transition conservation and monuments This collection of critical essays examines various facets of Riegl s work and opens with a new translation of Hans Sedlmayr s famous and notorious Die Quintessenze der Lehren Riegls Included is Julius von Schlosser s assessment of Riegl s contribution to the Vienna School of Art Historians as well as essays by a team of international scholars This book offers a re engagement with the ideas of one of the most important and neglected art historians of the 20th century **The British Quarterly Review** ,1883 **Globalising Sociolinguistics** Dick Smakman,Patrick Heinrich,2015-05-15 This book challenges the predominance of mainstream sociolinguistic theories by focusing on lesser known sociolinguistic systems from

regions of Africa Asia the Caribbean South America the European Mediterranean and Slavic regions as well as specific speech communities such as those speaking Nivkh Jamaican Creole North Saami and Central Yupik In nineteen chapters the specialist authors look at key sociolinguistic aspects of each region or speech community such as gender politeness strategies speech patterns and the effects of social hierarchy on language concentrating on the differences from mainstream models The volume introduced by Miriam Meyerhoff has been written by the leading expert of each specific region or community and includes contributions by Rajend Mesthrie Marc Greenberg and Daming Xu This publication draws together connections across regions communities and considers how mainstream sociolinguistics is incomplete or lacking It reveals how lesser known cultures can play an important role in the building of theory in sociolinguistics Globalising Sociolinguistics is essential reading for any researcher in sociolinguistics and language variation and will be a key reference for advanced sociolinguistics courses

Philosophy and Living Ralph Blumenau, 2014-04-30 Philosophy can be very abstract and apparently remote from our everyday concerns In this book Ralph Blumenau brings out for the non specialist the bearing that thinkers of the past have on the way we live now on the attitude we have towards our lives towards each other and our society towards God and towards the ethical problems that confront us The focus of the book is those aspects of the history of ideas which have something to say to our present preoccupations After expounding the ideas of a particular thinker there follows a discussion of the material and how it relates to issues that are still alive today indented from the margin and set in a different typeface based on the author's classroom debates with his own students Another feature of the book is the many footnotes which refer the reader back to earlier and forward to later pages of the book They are intended to reinforce the idea that throughout the centuries philosophers have often grappled with the same problems sometimes coming up with similar approaches and sometimes with radically different ones
