### VOLVO OWNER'S MANUAL S60

pg. 1 Introduction

Welcome to the worldwide family of Volvo owners. We hope that you will enjoy many years of safe driving in your Volvo, an automobile designed with your safety and comfort in mind. To help ensure your satisfaction with this vehicle, we encourage you to familiarize yourself with the equipment descriptions, operating instructions and maintenance requirements/recommendations in this manual. We also urge you and your passengers to wear seat belts at all times in this (or any other) automobile. And, of course, please do not operate a vehicle if you may be affected by alcohol, medication or any impairment that could hinder your ability to drive.

Your Volvo is designed to meet all applicable safety and emission standards, as evidenced by the certification labels attached to the driver's door opening and on the left wheel housing in the engine compartment.

Marit Breitfeld,2005-02-28 Inhaltsangabe Abstract In times of severe competition it is of crucial importance to create a

competitive advantage to differentiate from the competitors and to sustain the business of the company This thesis intends to

show that a customer focused quality management is one way to create a sustainable competitive advantage Quality controls

along the whole value chain before during and after production leads to failure free products which save costs on the one

hand and have thus a positive influence on the company s revenue On the other hand failure free products that meet the

customers expectations lead to satisfied customers who build up a brand loyalty and conduct retention sales which have a

positive influence on the company s sales market share as well as the overall image Furthermore this thesis points out that it

is important to listen to the voice of the customers and get an insight in the customer s needs and wants To fulfil or even

exceed their expectations leads to customer satisfaction which is a key to success in today s business world In addition the

customer demands in regard of quality are growing continuously and new technologies are appearing on the markets on a

regular basis Therefore the producers are forced to keep to the latest technology developments and to get hold on the

changing customer needs But even without this external pressure quality improvement is justified from a cost point of view The applicability of a customer oriented quality management is shown in the practical part of this thesis when the quality of the Saab models is analyzed from the customer s perspective Due to the arguments outlined in this thesis it can be summarized that a quality management with a focus on the needs of the customers in should become a core strategy of any company producing and selling products in order to create customer satisfaction and sustain the business This thesis deals with the field of quality management in the context of customer satisfaction To show the practical applicability of quality management this thesis is looking at how quality management is conducted in the automotive industry as we compare the Initial Quality Study IQS from the market research institute J D Power with a survey that was internally conducted at the Saab Automobile AB Today s business environment creates a growing need for quality management Tougher competition leads to the demand for cost savings and higher
