Historical Method and Confessional Identity in the Era of the Reformation (1378-1615) Irena Backus, 2021-10-11 This volume deals with the basic problem of how theologians of all confessions handled ancient mainly Christian history in the Reformation era The author argues that far from being a mere tool of religious controversy history was used throughout the 16th century to express profound religious and theological convictions and that historians and theologians of different confessions sought to define their religious identity by recourse to a particular historical method By carefully comparing the types of historical documents produced by Calvinist Lutheran and Roman Catholic circles she throws a new light on patristic editions and manuals the Centuries of Magdeburg the Ecclesiastical Annals of Caesar Baronius and various collections of New Testament Apocrypha Much of this material is examined here for the first time The book substantially revises existing preconceptions about Reformation historiography and view of the past

Oneness, Essence, and Self-Identity Damien Janos, 2024-07-22 In how many ways can things be said to be one how is oneness itself to be defined and what is its relation to essence and existence This book engages with these core questions by examining the works of Avicenna d 1037 CE who is widely regarded as the most important philosopher of the Arabic tradition In this monograph the first that is exclusively devoted to Avicenna's henology and to Arabic henology in general the author analyzes the place and meaning of oneness in Avicenna's general metaphysics and theology and devotes particular attention to how this notion relates to Avicenna's theory of quiddity He contextualizes Avicenna's doctrines in light of three major intellectual currents ancient Greek philosophy early Arabic philosophy and Islamic theology or kalām and also offers the first detailed analysis of oneness in the Bahshamite tradition The book challenges the prevailing interpretation of Avicenna's henology and adduces new textual evidence to show that Avicenna developed an innovative theory of oneness that expresses the essential reality and self identity of a thing This foundational sense of oneness is applied to all the pure quiddities and in an eminent and prior way to God

The Routledge Handbook of Identity and the Environment in the Classical and Medieval Worlds Rebecca Futo Kennedy, Molly Jones-Lewis, 2016-01-08 The Routledge Handbook of Identity and the Environment in the Classical and Medieval Worlds explores how environment was thought to shape ethnicity and identity discussing developments in early natural philosophy and historical ethnographies Defining environment broadly to include not only physical but also cultural environments natural and constructed the volume considers the multifarious ways in which environment was understood to shape the culture and physical characteristics of peoples as well as how the ancients manipulated their environments to achieve a desired identity This diverse collection includes studies not only of the Greco Roman world but also ancient China and the European Jewish and Arab inheritors and transmitters of classical thought In recent years work in this subject has been confined mostly to the discussion of texts that reflect an approach to the barbarian as other The Routledge Handbook of Identity and the Environment in the Classical and Medieval Worlds takes the discussion of ethnicity on a fresh course contextualising the concept of the barbarian within rational discourses such as cartography medicine and mathematical sciences an approach that allows us to more clearly discern the varied and nuanced approaches to ethnic identity which abounded in antiquity The innovative and thought provoking material in this volume realises new directions in the study of identity in the Classical and Medieval worlds

Soul Psychology Joshua David Stone, Ph.D., 2010-11-24 The words of Sai Baba God equals man minus ego are echoed by Dr Joshua David Stone in his seminal work Soul Psychology A veteran transpersonal psychologist and family counselor Dr Stone teaches us how our entire understanding of ourselves and others is completely changed when we integrate our soul into the way we live our lives Based on eighteen years of Dr Stone s practice this book is not a psychological approach to spirituality It is rather a spiritual approach to the psychology of everyday living At the heart of Soul Psychology is emotional healing through the dismantling of the negative ego a psychological cancer that prevents us from acting in accordance with our soul s true nature and purpose

This negative energy drives us to find our security outside of ourselves whereas the only true security is one that is grounded in having a right relationship with self and a right relationship with the Divine To guide us onto this path of spiritual ascension Soul Psychology offers a stimulating new viewpoint that expands the boundaries of traditional spiritual practice providing a wealth of accessible and powerful meditations and exercises including The six step process for healing and spiritualizing emotions The spiritual science of the seven rays and the twenty two chakras Methods for clearing negative psychic energies that inhibit soul growth The one hundred most common pitfalls and traps on the spiritual path *Etched in Flesh and Soul* Batya Brutin,2021-12-06 A series of numbers was tattooed on prisoners forearms only at one location the Auschwitz concentration camp complex Children parents grandparents mostly Jews but also a significant number of non Jews scarred for life Indelibly etched with a number into their flesh and souls constantly reminding them of the horrors of the Holocaust References to the Auschwitz number appear in artworks from the Holocaust period and onwards by survivors and non survivor artists and Jewish and non Jewish artists These artists refer to the number from Auschwitz to portray the Holocaust and its meaning This book analyzes the place that the image of the Auschwitz number occupies in the artist s consciousness and how it is grasped in the collective perception of different societies It discusses how the Auschwitz number is used in public and private Holocaust commemoration Additionally the book describes the use of the Auschwitz number as a Holocaust icon to protest warn and fight against Holocaust denial The Soul George Bush,1845 **Resurrection Realism** Patrick J. Fletcher,2014-07-21 In *Resurrection Realism* Patrick Fletcher examines the key role played by Joseph Ratzinger later Pope Benedict XVI 2005 2013 in the lively twentieth century debates over the resurrection Since Ratzinger has repeatedly claimed to be a follower of Augustine of Hippo whose theology of resurrection has been so significant in Western Christianity this book begins by identifying the key characteristics of that theology before studying Ratzinger s theology of resurrection in detail examining the original sources of both Ratzinger and his German interlocutors in order to paint the clearest picture to date of Ratzinger s thought on the resurrection Some issues dealt with include the development of Ratzinger s thought the question of Augustinian duality and Thomistic hylomorphism the salvation of matter and the nature and identity of the risen body **Christians Shaping Identity from the Roman Empire to Byzantium** Geoffrey Dunn,Wendy Mayer,2015-07-14 The essays collected in *Christians Shaping Identity* celebrate Pauline Allen s significant contribution to early Christian late antique and Byzantine studies especially concerning bishops heresy orthodoxy and christology Covering the period from earliest Christianity to middle Byzantium the first eighteen essays explore the varied ways in which Christians constructed their own identity and that of the society around them A final four essays explore the same theme within Roman Catholicism and oriental Christianity in the late 19th to 21st centuries with particular attention to the subtle relationships between the shaping of the early Christian past and the moulding of Christian identity today Among the many leading scholars represented are Averil Cameron and Elizabeth A Clark *Theology of the Soul* Martine C. L.

Oldhoff,2024-06-10 Theology of the Soul engages with a thoroughly theological and philosophical subject in fresh and profound ways the soul The author examines the possibility of a concept of the soul in modern Western theology In the second part of the 20th century speaking about the soul was strongly criticized in Theology and Philosophy Consequently many academic theologians consider the word soul problematic Remarkably the word soul is very much present in contemporary culture This book takes cultural notions of the soul as employed by for example Marilynne Robinson and Oprah Winfrey as a point of departure The author then investigates the functions of the soul in classical theologies and provides elucidating overviews of the ways in which the soul is discussed and problematized in contemporary Philosophy and Biblical Studies After introducing the apostle Paul as conversation partner she reconsiders various contemporary concepts from a Pauline perspective and offers a constructive systematic theological proposal to speak of the soul in today s modern theological and cultural contexts This interdisciplinary study integrates continental and analytic methods and discussions on the soul in Philosophy and Theology providing a very comprehensive study of the soul Sway of the Ottoman Empire on English Identity in the Long Eighteenth Century Emily Kugler,2012-02-17 By focusing on eighteenth century English textual representations of the Ottomans we can observe the turning point in public perceptions the moments when English subjects began to believe British imperial power was a reality rather than an aspiration *Immortality* Paul Edwards,2009-12-02 Is there life after death or do we simply cease to exist Renowned scholar Paul Edwards has compiled *Immortality* a superb group of philosophical selections featuring the work of both classical and contemporary authors who address the topics of immortality soul and body transmigration materialism epiphenomenalism physical research and parapsychology reincarnation disembodied existence and much more In addition to a 70 page editorial introduction offering an in depth discussion of the forms which belief in immortality has taken this volume includes selections from Thomas Aquinas A J Ayer Paul and Linda Badham John Beloff C D Broad Joseph Butler Rene Descartes C J Ducasse Paul Edwards Hugh Elliot Antony Flew John Foster Peter Geach John Hick John Hospers David Hume William James Raynor Johnson Immanuel Kant John Locke Lucretius Donald MacKay John Stuart Mill Derek Parfit Plato H H Price Joseph Priestley Thomas Reid Tertullian Peter van Inwagen and Voltaire Also included is a detailed annotated bibliography *The Life of the Soul* Andrea Gondos,Leore Sachs-Shmueli,2024-12-01 The Life of the Soul surveys the wide ranging theories Jewish mystics have offered to the vexing question what precisely transpires after we die A common element in their theories is that human life is a part of a larger ecosystem of being which also includes plants animals and inanimate things like rocks They further maintained that the soul does not perish with the demise of the body but is rather renewed and recycled into new forms of embodied existence in the lower world Each essay highlights how reincarnation also known as metempsychosis or the transmigration of souls is not a marginalized concept but is instead central to understanding a variety of perplexing issues in Judaism including catastrophic events in Jewish history theodicy the rationale for biblical commandments the complex identity of biblical figures and the

issues of sin punishment and redemption Just as the concept of reincarnation is inherently about boundary crossing its investigation similarly bridges diverse epistemic fields and disciplines religion philosophy psychology history ritual gender and cultural studies Weaving together kabbalistic speculations and Jewish philosophical ideas drawn from distinct geographical regions and historical periods this book is poised to serve as a point of departure for future comparative investigations on the life of the soul in Judaism and Eastern religious traditions *Controversies in Contemporary Religion* Paul Hedges,2014-09-09 Religious or spiritual beliefs underpin many controversies and conflicts in the contemporary world Written by a range of scholarly contributors this three volume set provides contextual background information and detailed explanations of religious controversies across the globe *Controversies in Contemporary Religion* Education Law Politics Society and Spirituality is a three volume set that addresses a wide variety of current religious issues analyzing religion s role in the rise of fundamentalism censorship human rights environmentalism and sustainability sexuality bioethics and other questions of widespread interest Providing in depth context and analysis far beyond what s available in the news or online this work will enable readers to understand the nature of and reasons for controversies in current headlines The first volume covers theoretical and academic debates the second looks at debates in the public square and ethical issues while the third examines specific issues and case studies These volumes bring detailed and careful debate of a range of controversies together in one place including topics not often covered for example how religions promote or hinder social cohesion and peace the relationship of religions to human rights and the intersection of Buddhism and violence Written by a range of experts that includes both established and emerging scholars the text explains key debates in ways that are accessible and easy to understand for lay readers as well as undergraduate students researching particular issues or global religious trends
