South African Police Psychometric Test:

Psychological Assessment in South Africa Sumaya Laher, Kate Cockcroft, 2013-01-01 This book provides an overview of the research related to psychological assessment across South Africa. The thirty six chapters provide a combination of psychometric theory and practical assessment applications in order to combine the currently disparate research that has been conducted locally in this field. Existing South African texts on psychological assessment are predominantly academic textbooks that explain psychometric theory and provide brief descriptions of a few testing instruments. *Psychological Assessment in South Africa* provides in depth coverage of a range of areas within the broad field of psychological assessment including research conducted with various psychological instruments. The chapters critically interrogate the current Eurocentric and Western cultural hegemonic practices that dominate the field of psychological assessment. The book therefore has the potential to function both as an academic text for graduate students as well as a specialist resource for professionals including psychologists, psychometrists, remedial teachers and human resource practitioners. *Policing and Crime Control in Post-apartheid South Africa* Anne-Marie Singh, 2016-04-22 Once a marginal political issue, crime control now occupies a central place on the social, political and economic agenda of contemporary liberal democracies. Nowhere more so than in post apartheid South Africa where the transition from apartheid rule to democratic rule was marked by a shift in concern from political to criminal violence. In this book Anne Marie Singh offers a comprehensive account of policing transformations in post apartheid South Africa. Her analysis of crime and mechanisms for its control is linked to an analysis of neo liberal policies providing the basis for a critique of existing analyses of liberal democratic governance. Themes addressed in the book include the exercise of coercive authority, state and non state expertise in policing, the rationally choosing criminal and the importance of developing an active and responsible citizenship. **Annual Report of the South African Police Service** South African Police Service, 2000 **Forensic Psychology: The Basics** Sandie Taylor, 2015-06-05 This text provides an engaging overview to the core topics within Forensic Psychology, guiding the reader through this exciting and popular discipline. Combining a discussion of theory with information about the role of a professional forensic psychologist, it addresses such key issues as Police Psychology, Psychology of crime and delinquency, Victimology and victim services, Legal Psychology, Correctional Psychology. With a glossary of key terms, case studies and suggestions for further reading, this is an informative study guide for anyone approaching the academic study of Forensic Psychology for the first time. **Report of the Commissioner of the South African Police** South African Police, 1994 **Fresh Perspectives: Business management: UJ Custom Publication**, 2008 **Organizational Culture** Karel De Witte, Jaap J. van Muijen, 2000-02-10 Management of organizational culture is a controversial topic.
