Thornton, 2012-09-10 An overview of the history of the Atlantic Basin before 1830 describing interactions between the inhabitants of Africa Europe and North and South America Remembering Anne Beach Carolyn Day, 2025-02-28 Remembering Anne Beach pulls back the veil on the challenges of research the problems of gaps in archives and the long process involved in constructing historical narratives Through the tragic tale of an ill fated couple and their disapproving families this microhistory explores not only forbidden love but also marriage illness death disability and scandal in eighteenth century society Drawing on the story of Anne Beach the author sheds light on the lost experiences of early modern women as well as those with mental afflictions who have left us mere fragments of their lived experiences In weaving a tragic narrative Day also tackles the problem of archival silences and provides the reader with insight into the highs and lows of the research process With charm and clarity Day describes the frustration skill determination obsession and sheer luck required to be able to provide a diligent more inclusive perception of our past Ego Psychology Gertrude Blanck, Rubin Blanck, 1994 This best seller breaks new ground by demonstrating how mainstream psychoanalytic theory has evolved into a psychoanalytic developmental object relations theory The authors summarize the contributions of the major ego psychologists from Freud to the contemporary theorists including the new findings of the child observationalists By integrating these several contributions the authors are able to show that classical psychoanalysis and ego psychology combine to form a unified theory that provides a more profound

understanding of the borderline and narcissistic conditions as well as of the neuroses From this comprehensive synthesis of theory the authors derive techniques for the treatment of the more troubled patient and expand the classical technique for the psychoanalysis of neurosis Recognizing that there are preoedipal developmental problems even in neurotic patients and that there are oedipal issues in the borderline and narcissistic patients the authors demonstrate the applicability of developmental object relations theory across the diagnostic spectrum and include a new chapter on termination Using numerous case illustrations from their own practice the Blancks have constructed an extraordinarily comprehensive and readable text that updates psychoanalytic theory for the nineties

Spousework Teresa Johnston Oden, 2007-07 It's a privileged life with great potential but if you don't keep the upper hand it feels like you've taken a wild animal into your home says Teresa Oden whose husband has been leading academic institutions for eighteen years Although the spouses are a disparate bunch Oden maintains that they share a desire to support their leader partners It's no simple task The institution is so closely entwined with the leader's life that it practically becomes a third partner in the marriage The spouse must learn to negotiate with that fact Oden discusses the ways in which supporting a leader partner differs from traditional helpmate roles She examines the reasons for lingering expectations why female spouses in particular are still expected to volunteer their time to the leaders' careers as well as the special concerns of male spouses A self-described introvert who needs a lot of privacy Oden admits that her adjustment to life as the leader's spouse was difficult Today I can honestly say that there are parts of my role that I treasure I found my way but I felt the lack of a book that spoke to my experience
