Cary Cooper, Ian Rothmann

South African Police Service Test Questions And Answers:

Organizational and Work Psychology: Topics in Applied Psychology Cary Cooper, Ian Rothmann, 2013-11-26 Topics in Applied Psychology is a series of integrated texts combining both the academic and professional aspects of applied psychology. Written by a team of high profile UK academics, this series is ideal for second and third year psychology undergraduates.

Work and Organizational Psychology Sebastiaan Rothmann, Cary L. Cooper, 2015-04-17 Psychologists have been fascinated by the world of work and the changing relationship between people, technology and the workplace since the onset of the industrial revolution. And in providing a complete and contemporary overview of this evolving and fascinating field, the new edition of *Work and Organizational Psychology* is the perfect textbook, outlining not only the key theoretical ideas but also how they relate to the role of psychologists advising today's organizations. The only textbook to integrate the fields of HRM and organizational behaviour, the new edition is thoroughly revised to cover new technological advances such as virtual workplaces and virtual employees. In an era of rapid socio-economic change, there is also expanded coverage of the role of workplace diversity, employee commitment and globalization, as well as updated chapters on key concepts such as motivation, leadership, group behaviour and well-being at work. Also including a chapter on career development, the book is supported by a range of pedagogical features spotlighting issues of theoretical, ethical or contemporary interest, whilst also enabling students to engage in active learning. Lucid and comprehensive, the second edition of *Work and Organizational Psychology* will be the cornerstone for any student of this dynamic field.

Security Governance, Policing, and Local Capacity Jan Froestad, Clifford Shearing, 2012-12-13 The security governance of South Africa has faced immense challenges amid post-apartheid constitutional and political transformations. In many cases, policing and governmental organizations have failed to provide security and other services to the poorest inhabitants. *Security Governance, Policing, and Local Capacity* explores an experiment that took place in Zwelethemba, located in South Africa's Western Cape Province, to establish legitimate and effective nonstate security governance within poor urban settlements. There has been and continues to be much reticence to endorsing private forms of security governance that operate outside of state institutions within local communities. Those initiatives have often led to situations where force is used illegally and punishment is dispensed arbitrarily and brutally. This book explores the extent to which this model of mobilizing local knowledge and capacity was able to effectively achieve justice, democracy, accountability and development in this region. Whenever possible, the book includes raw data and a thorough analysis of existing information on security governance. Examining this case and its outcome, the authors provide a theoretical analysis of the model used and present a series of design principles for future applications in local security governance. The book concludes that poor communities are a significant source of untapped resources that can, under certain conditions, be mobilized to significantly enhance safety. This volume is an important examination of experimental models and a presentation of new groundbreaking theory on engaging the local community in
