Randall, 2018-03-14 This book examines part of the development of the Bruderhof community which emerged in Germany in 1920 Community members sought to model their life on the New Testament This included sharing goods The community became part of the Hutterite movement with its origins in sixteenth century Anabaptism After the rise to power of the Nazi regime the Bruderhof became a target and the community was forcibly dissolved Members who escaped from Germany and travelled to England were welcomed as refugees from persecution and a community was established in the Cotswolds In the period 1933 to 1942 when the Bruderhof's witness was advancing in Britain its members were in touch with many individuals and movements This book covers the Bruderhof's connections with among others the Fellowship of Reconciliation Dietrich Bonhoeffer the Peace Pledge Union the social work of Muriel and Doris Lester in East London Jewish refugee groups and artistic pioneers like Eric Gill As significant numbers of British people joined the Bruderhof its farming publishing and arts and crafts activities extended considerably But with the outbreak of the Second World War German members came to be regarded with suspicion and British members became unpopular locally because they were pacifists Although the Bruderhof was defended in Parliament notably by Lady Astor it seemed that German members would be interned as enemy aliens The consequence was that by 1942 over 300 community members had left England With Mennonite assistance they began to forge a new life in South America This book traces a remarkable Christian peace experiment being undertaken in a time of great political upheaval *Children's Books in Print* R R Bowker Publishing, Bowker, 1999-12 **Variation in Language: System- and Usage-based Approaches** Aria Adli, Marco García García, Göz Kaufmann, 2015-07-24 Where is the locus of language variation In the grammar outside the grammar or somewhere in between Taking up the debate between system and usage based approaches this volume provides new discussions of fundamental issues of language variation It includes several highly insightful theoretical contributions as well as innovative empirical studies considering different types of data the role of priming in language change and rare phenomena **The Supply Side of Security** Tongfi Kim, 2016-04-13 The Supply Side of Security conceptualizes military alliances as contracts for exchanging goods and services At the international level the market for these contracts is shaped by how many countries can supply security Tongfi Kim identifies the supply of policy concessions and military commitments as the main factors that explain the bargaining power of a state in a potential or existing alliance Additionally three variables of a state's domestic politics significantly affect its negotiating power whether there is strong domestic opposition to the alliance whether the state's leader is pro alliance and whether that leader is vulnerable Kim then looks beyond existing alliance literature which focuses on threats to produce a deductive theory based on analysis of how the global power structure and domestic politics affect alliances As China becomes stronger and the U S

military budget shrinks The Supply Side of Security shows that these countries should be understood not just as competing threats but as competing security suppliers
