Hot beaches, beautiful and diverse nature and rich choice of places of interest let every traveler select a program to fit one's taste. Bangkok remains one of the most favorite destinations for travelers. Wat Pho

or the Temple of the Reclining Buddha built in the 7th century is the main landmark of the central square The 15 meter long statue of Buddha is the main decoration of the temple The statue is decorated with mother of pearl and skillful carving Walls of the temple feature amazing paintings that depict Buddha and his apprentices There is a gallery on the temple territory where visitors will see a collection of rare figurines There are approximately 400 items in total Travelers are recommended not to forget to visit the Royal Palace that has become the main symbol of the medieval culture The building is located in the old district of Bangkok Nowadays the palace is used to host important governmental meetings religious ceremonies and other events Luxurious halls and galleries are very interesting to observe but the outside design of the former royal residence is no less striking The Floating Market is one of the most unusual places in the capital The only way to reach the market is to use a boat There are many small canals in this part of the city so instead of typical stalls there are rows of small boats completely filled with different goods Souvenirs and seafood are the most typical goods sold here Quite an interesting fact the majority of sellers on the market are women They control these floating kiosks with ease and can move from one corner of the market to another during the day From an archaeological point of view Ban Chiang is the most interesting part of Thailand In 1966 scientists found here the remains of an ancient settlement that belongs to the Bronze period Ceramics and items made of bronze have become the most precious findings here It is possible to see these priceless items in the local museum that is also known as one of the most frequently visited cultural centres in the country
