

Dear Dr. Bernard R. Glick,

I am applying for the Assistant Professor position in the Department of Biology at the University of Waterloo, which was advertised on the International Society for Microbial Ecology website. Having finished a Ph.D. with Dr. William W. Mohn at the University of British Columbia in early 2005, I am currently a Postdoctoral Research Fellow at the University of Warwick under the direction of Professor J. Colin Murrell.

My research focuses on the factors affecting the diversity and composition of microbial communities, and also on the discovery of novel organisms and metabolic functions that mediate carbon and nitrogen transformations in the environment. A solid familiarity with molecular and genomic techniques, as well as extensive experience with soil and aquatic environments suggest a good fit for me as a faculty member within the Department of Biology at the University of Waterloo.

The position description indicates the importance of active research and teaching for the candidate. As the attached curriculum vitae shows, my love for research in environmental microbiology and ability to communicate effectively have resulted in numerous publications and award-winning presentations. My enthusiasm for research is matched by my desire to bring innovative teaching skills to undergraduate and graduate courses. My university teaching experience has involved multiple teaching assistantships and the supervision of several undergraduate and graduate students. This background of research and teaching excellence will be critical assets as I begin an academic position involving externally-funded research and student education.

I would welcome an opportunity to discuss the position in more detail and am excited by the possibility of contributing to the high standard of education at the University of Waterloo.

Sincerely,

Thank You Letter To Phd Dissertation Committee

The Greatest Love Story Never Told Richard Orion,2015-10-30 This story is based on a true love story that spanned almost two decades The names and places have been changed to protect the privacy of the individuals involved in this affair The chronological sequence of events has been maintained for continuity All the stories and experiences are based on facts This book is about a love story that was kept secret for 18 years and perhaps shouldve remained a secret The first book related to this love story was a book of poems entitled Somewhere Sometime Somehow Love Poems and Short Stories published in 2008 by this author and Xlibris For the perceptive reader of this book one can trace the ups and downs of our love relationship These 18 years were filled with robust love and passion for each other Perhaps it was fantasy perhaps it was the most real thing we will ever experience The heartbreaking part of this love affair is that I am not really sure my lover ever really understood or appreciated my profound and unconditional love for her I opened my heart to her through poetry and thoughtful letters but she rarely showed me what was in her heart Perhaps it was a one sided love affair but I surely think and hope not I was convinced that she truly loved me

through her words and actions At least I experienced a pure love that I had only dreamed was possible The story is told mainly through the exchange of letters and emails to each other Perhaps readers can experience and hopefully feel the deep love we felt for each other 1989 Scientific Sessions Book of Abstracts Sigma Theta Tau International. Subcommittee on Oceanography,1978 **The Renewal of the Heart Is the Mission of the Church** Gregory S. Clapper,2010-01-01 John Wesley has arguably influenced more American Christians than any other Protestant interpreter One reason for this wide influence is that Wesley often spoke about the heart and its affections that realm of life where all humans experience their deepest satisfactions as well as some of their deepest conundrums However one of the problems of interpreting and appropriating Wesley is that we have been blinded to Wesley s actual views about heart religion by contemporary stereotypes about affections or emotions Because of this it is rare that either Wesley s friends or his critics appreciate his sophisticated understanding of affective reality To make clear what Wesley meant when he emphasized the renewal of the heart Gregory S Clapper summarizes some recent paradigm changing accounts of the nature of emotion produced by contemporary philosophers and theologians and then applies them to Wesley s conception of the heart and its affections These accounts of emotion throw new light on Wesley s vision of Christianity as a renewal of the heart and make it possible to reclaim the language of the heart not as a pandering or manipulative rhetoric but as the framework for a comprehensive theological vision of Christian life and thought The book closes with several practical applications that make clear the power of Wesley s vision to transform lives today **What Are You Doing About It?** David W.
