PUNISHMENT AND SENTENCING

Learning Objectives

1. Recognize the goals of punishment
2. Identify the types of sentences judges can impose
3. Understand what really happens in sentencing
4. Analyze whether the system treats wrongdoers equally

Outline

- I. The goals of punishment
 - Criminal sanctions in the United States have four main goals:
 - Retribution
 - Deterrence
 - Incapacitation
 - Rehabilitation
 - A. Retribution
 - Punishment inflicted on a person who has infringed on the rights of others and so deserves to be penalized
 - Since the late 1970s, retribution as a justification for the criminal sanction has aroused new interest, largely because of dissatisfaction with results of rehabilitation
 - B. Deterrence
 - There are two types of deterrence:
 - General deterrence
 - Specific deterrence
 - C. Incapacitation
 - Deprives the ability of an offender to commit crimes against society by detaining him/her in prison
 - Selective incapacitation targets individuals whose incapacity will do the most to reduce crime in society
 - D. Rehabilitation
 - The goal of restoring a convicted offender to a constructive place in society
 - Was widely accepted as a goal from the 1940s to the 1970s
 - Most Americans still support at least the concept of rehabilitation
 - E. Restorative justice
 - Supporters would add restorative justice to the list of goals of the criminal justice system
 - Requires a three-way approach that involves the offender, the victim, and the community
 - Utilizes mediation among the three actors to devise ways to repair the harm

German army knew that the days of their comparatively idyllic existence were drawing to a close by 1944 2 In the summer of 1940 there was no thought of an invasion in the minds of Germany's soldiers basking in the glory of victory over their traditional foe But as the German Army advanced into the Soviet Union in 1941 it began to realize that it needed to rest its troops 3 Rundstedt was the OB West and he was frustrated with the situation in France He had no authority over the air and naval units and Hitler and his closest advisers on the Wehrmacht High Command oversaw operations in the west 4 The German occupation of France was not good for the discipline of the German soldier The activities in Paris which were severely restricted led to a rise in attacks rapes assaults and misdemeanours *The American System of Dressmaking* Pearl Merwin, 1907 Bulletin (new Series) of the American Mathematical Society, 1915 **The American Militia Movement: A Comprehensive Overview** Pasquale De Marco, 2025-04-26 In a time of increasing social and political polarization the American militia movement has emerged as a significant force to be reckoned with This book provides a comprehensive overview of this complex and controversial phenomenon delving into the history ideology membership and impact of militias in the United States The first chapter traces the historical roots of militias in the United States from their origins as colonial era minutemen to their modern day incarnation as armed citizen groups It examines the factors that have contributed to the growth of militias in recent decades including political polarization the rise of social media and concerns about government overreach The second chapter explores the ideology and beliefs that underpin the militia movement It examines the centrality of the Second Amendment to militia ideology and the belief in the necessity of armed self defense against perceived threats to individual liberty It also examines the role of conspiracy theories anti government sentiments and religious beliefs in shaping militia ideology The third chapter examines the activities and training practices of militias It discusses the types of training exercises commonly conducted by militias the weapons and equipment they typically use and their involvement in local and state politics It also explores militia involvement in protests demonstrations and armed standoffs The fourth chapter explores the demographics and motivations of militia members It examines the diversity of militia membership including age gender racial makeup educational and socioeconomic backgrounds and geographic distribution It also delves into the reasons why individuals join militias ranging from concerns about government overreach to a desire for community and belonging If you like this book write a review on google books Journal of the American Medical Association American Medical Association, 1921 *The American Decisions*, 1911 Annual Report of the American Bar Association American Bar Association, 1912 **Journal of the American Chemical Society** American Chemical Society, 1924 Proceedings of the Society are included in v 1 59 1879 1937 *The American Reports* Isaac Grant Thompson, Irving Browne, 1873 *The American Reports* Isaac Grant Thompson, 1912 **The Making of the American Nation** Charles Ellsworth Mertz, 1926 **After Jutland** James V Goldrick, 2018-10-15 After Jutland analyses the naval war in Northern European waters following the critical but inconclusive Battle of Jutland A popular misconception is that Jutland

marked the end of the operational career of the German High Sea Fleet and the beginning of a period of stagnation for both it and its opponent the Grand Fleet. The reality is much more complex. The German battle fleet was quiescent for much of the time in the North Sea but it supported an ambitious amphibious campaign in the Baltic while a bitter commerce war was waged by U Boats and the light craft fought a grueling campaign in the waters of the English Channel and the Belgian Coast. After Jutland focuses primarily on the Royal Navy as the dominant maritime force but it also analyses the struggles of the beleaguered German Navy as it sought to find ways to break the tightening stranglehold of the blockade and undermine Allied control of the world's oceans and of British home waters in particular. The continuing conflict in the Baltic will also be explored as the Germans increased the pressure on the Russian territory and the Russian fleet while the latter despite its descent into revolution still struggled to provide an effective counter to the Imperial German Navy. The Royal Navy learned much from Jutland and applied those lessons to good effect. It greatly improved the way that ships were organized for battle as well as developing new tactics. There were also great leaps in communications and in command and control while both aviation and undersea operations including mine warfare developed at breakneck pace. The Imperial German Navy made its own changes as a result of Jutland. Indeed both Germany and Russia undertook much more naval innovation in the final years of the conflict than is often realized. By 1918 all the protagonists were fighting what was in every way a multi dimensional maritime war that was the forerunner of naval conflict for the remainder of the twentieth century. The period also saw the entry to the conflict of the United States and the increasing commitment of the United States Navy. USN units saw hard service before the Armistice of November 1918. Many of the foundations of success in the next war were laid by the USN at this time. The learning curve was steep as officers and sailors alike sought to catch up on the experience of nearly three years of conflict but they brought new methods and new applications of technology to the operational problems with which their coalition partners had been struggling. This included the Sixth Battle Squadron which was rapidly assimilated into the Grand Fleet absorbing the hard won knowledge of their British colleagues but applying some of their own ideas.
