R. Brant, 2018-11-01 After a recent CUFA conference many social studies teacher educators came to realize that pre service teachers are skeptical of calls to integrate sensitive topics in the curriculum because they do not see it in their field experiences The purpose of this edited book is to share examples of Pre K 12 grade teachers schools or school systems that infuse race class gender and sexuality in the curriculum This book offers concrete examples of social studies teachers schools and schools systems committed to the inclusion of topics often deemed as sensitive or controversial Care was taken to provide examples from diverse geographic areas school types public charter private etc and grade levels Researchers teamed with practicing professionals to highlight teachers and schools that successfully integrate race class gender and or sexuality in the curriculum The chapters provide specific examples of content inclusion share high leverage practices and provide advice for others infusing race class gender and sexuality in the curriculum Teaching World History: A Resource Book Heidi Roupp, 2015-03-04 A resource book for teachers of world history at all levels The text contains individual sections on art gender religion philosophy literature trade and technology Lesson plans reading and multi media recommendations and suggestions for classroom activities are also provided **Speaking American** Zevi Gutfreund, 2019-03-07 When Lyndon B Johnson signed the Bilingual Education Act of 1968 language learning became a touchstone in the emerging culture wars Nowhere was this more apparent than in Los Angeles where elected officials from both political parties had supported the legislation and where the most disruptive protests over it occurred The city with its diverse population of Latinos and Asian Americans is the ideal locus for Zevi Gutfreund s study of how language instruction informed the social construction of American citizenship Combining the history of language instruction school desegregation and civil rights activism as it unfolded in Japanese American and Mexican American communities in L A this timely book clarifies the critical and evolving role of language instruction in twentieth century American politics *Speaking American* reveals how for generations language instruction offered a forum for Angelino educators to articulate their responses to policies that racialized access to citizenship from the national origins immigration quotas of the Progressive Era through Congress s removal of race from these quotas in 1965 Meanwhile immigrant communities designed language experiments to

counter efforts to limit their liberties Gutfreund s book is the first to place the experiences of Mexican Americans and Japanese Americans side by side as they navigated debates over Americanization programs intercultural education school desegregation and bilingual education In the process the book shows these language experiments helped Angelino immigrants introduce competing concepts of citizenship that were tied to their actions and deeds rather than to the English language itself Complicating the usual top down approach to the history of racial politics in education Speaking American recognizes the ways in which immigrant and ethnic activists as well as white progressives and conservatives have been deeply invested in controlling public and private aspects of language instruction in Los Angeles The book brings compelling analytic depth and breadth to its examination of the social and political landscape in a city still at the epicenter of American immigration politics
