Newsweek *The Art of Servant Leadership II* Art Barter, 2018-02-02 Not many industry revolutions begin with a typical married couple who risk everything to do something they've never done before. But that is exactly what Art and Lori Barter did in 2004 when they purchased Datron World Communications. The husband and wife knew everything about the power of strong values and the lack of values in modern corporations but nothing about running a large scale business that was at the time losing money. It was a test of faith and perseverance unlike any other. Everything from financial security to spiritual fulfillment was on the line. *The Art of Servant Leadership II* instructs modern business leaders on how to transform their businesses to servant led organizations that prioritize integrity over profitability and never ending quests to accumulate power. By integrating the servant led paradigm into their inner lives and professional thinking today's leaders can revolutionize heartless corporate strategies that reward the few at the expense of the many. Today Datron World Communications is a multimillion dollar multicultural international company with customers in more than eighty countries. That success is the result of the lessons taught in *The Art of Servant Leadership II* and proof that serving others with compassion and humility brings unprecedented rewards.
